STA-FRESH

FOR USE ON PEACHES TO REDUCE LOSSES CAUSED BY DECAY AND

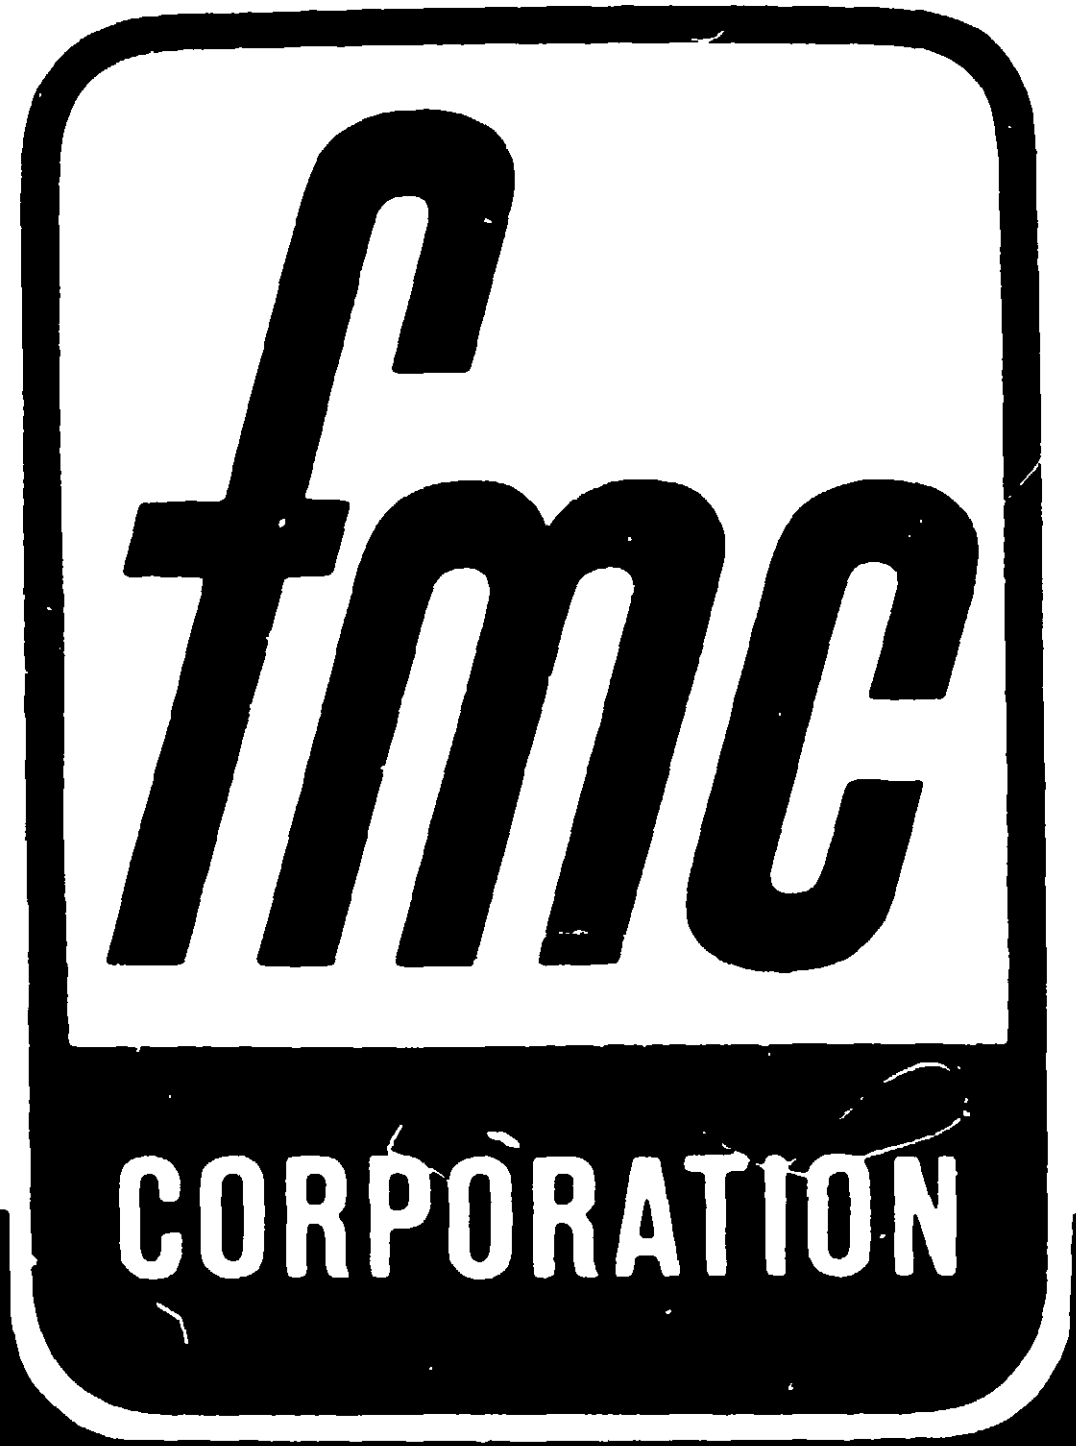

Sta-Fresh No. 101 is a protective coating preparation for peaches packed for the fresh markets. In addition to waxy coating materials, it contains Botran[®], thereby combining protection against decay as well as preservation of freshness and reduction of weight loss. This protective coating is not affected by hydrocooling.

DIRECTIONS

Apply Sta-Fresh in a highly atomized spray at the rate of 1 gallon per 200 bushels, in accordance with directions for the operation of the Sta-Fresh Wax Applicator. The residue tolerance of 20 parts per million, as established by the U. S. Food and Drug Administration, will not be exceeded. This process for treating fresh peaches is protected by U.S. patent No. 2,866,709 owned by the FMC Corporation.
