

FUL-O-KOPPA helps prevent decay in wood caused by exposure to moisture and weather. It penetrates the wood and deposits a residue which is insoluble in water. This "built-in" protection adds years to the life of wood.

DIRECTIONS FOR USE

Use FUL-O-KOPPA as it comes from the can. Wood must be free of bark, dry and well seasoned. Always brush or spray two liberal coats. Soak two hours for lumber up to 2 inches thick. Heavier timbers and posts should soak overnight. Air dry 48 hours before painting.

Soak canvas, rope and net until thoroughly wet. Allow to drain and dry.

After exposure the green color bleaches away; however, the preservative is still present.

CONTAINS PETROLEUM DISTILLATES

It is flammable, with a flashpoint around 100°F. Do not use near open flame. Keep away from heat and open flame. Do not use in enclosed spaces. Avoid breathing of vapor or spray mist. Do not use for children's toys or in child's containers. Keep container closed when not in use.

This product is toxic to fish. Do not use to treat water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Destroy Empty Containers. Do not reuse this container for any purpose.

Place label on top & bottom of empty metal container and inside each of heavy vessels or casks and bury or seal container deeply in a pit or non-crop land in an isolated area away from water supplies. Do not burn empty containers.
