

DIRECTIONS FOR USE

EQUIPMENT SANITATION

Preclean equipment with cold or lukewarm water. Fill with solution 2 oz. Solo San 120 to 10 gal. water. (Provides 25 ppm titratable iodine.) When ready to use equipment, drain off Solo San 120 solution and flush with water.

TANK AND VAT SANITATION

Preclean with water (not hot). Add solution 2 oz. Solo San 120 to 10 gal. water. (Provides 25 ppm titratable iodine). After five minutes, drain off solution and flush with water.

SANITATION OF WALLS, FLOORS, CONVEYORS, ETC.

Clean daily with solution 2 oz. Solo San 120 to 10 gal. water (25 ppm titratable iodine.)
Clean weekly or at batch run end with solution 4 oz. Solo San 120 to 10 gal. water (50 ppm titratable iodine) and rinse.

SANITATION OF BEVERAGE CONTAINERS

Follow local Health Department regulations, which usually suggest use-solutions in the range of the lower ppm levels shown in the Dilution Table presented on label.
