

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS  
DANGER

Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles, face shield or safety glasses when handling. Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapor or spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

STATEMENT OF PRACTICAL  
TREATMENT

IF IN EYES: Hold eyelids open and flush with a steady stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF SWALLOWED: Call a doctor or get medical attention. Do not induce vomiting or give anything by mouth to an unconscious person. Drink promptly a large quantity of milk, egg whites, gelatin solution, or if this is not available large quantities of water. Avoid alcohol.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth to mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing before discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your state water board or regional office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION:

Troysan 174 is sold for industrial use only.

Troysan 174 is a broad spectrum, non-metallic organic biocide designed for use in products subject to bacterial deterioration. Examples of such products are: latex paints, resin emulsions, adhesives, pigment dispersions, joint cements, cutting oils, and drilling additives.

Troysan 174 is used in all products where water is a primary component. Normal use levels range from 0.1%-0.3% based upon the total weight of the formulation. Troysan 174 should be added to the latter phase of the manufacturing process. It should not be exposed to temperatures exceeding 125°F (52°C) for prolonged periods of time. Further, Troysan 174 is not suitable for use in systems with a pH below 7. Troysan 174 may also be used to control microbial growth at the air-water interface of paint manufacturing latex storage tanks. A 1.0% aqueous solution should be sprayed over the surface.

Note: All amino based products may cause discoloration. Customers are encouraged to check for color stability in their systems.

STORAGE AND DISPOSAL

STORAGE: Do not store near heat or ignition sources. Do not store at freezing temperatures for prolonged periods. This product is corrosive to metal. Do not store in unlined metal containers.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage and disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinsate is a violation of Federal Law. If these wastes can not be disposed by use according to label instructions, contact your state pesticide or environmental control agency or the hazardous waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

PHYSICAL AND CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame. Troysan 174 is strongly alkaline.
