Attention: Peko Rasic

Subject: Micropel IT4 DIDP
EPA Registration No. 5383-128
Amendment Date June 24, 2009

This will acknowledge receipt of your notification for the following alternate brand name, submitted under the provisions of FIFRA Section 3(c)(9). Based on a review of the submitted material, the following comments apply.

ADDITIONAL BRAND NAME

"Micropel IT4ESO"

The Notification is in compliance with PR Notice 98-10 and is acceptable. This information has been added to your file.

If you have any questions concerning this letter, please contact Martha Terry at (703) 308-6217.

Sincerely

A handwritten signature in cursive script, appearing to read "Marshall Swindell".

RE: Micropel IT4 DIDP (EPA Reg. No. 5383-128)
Notification of Alternate Brand Name per PR Notice 98-10

Dear Ms. Lantz:

Micropel, LLC, a division of Troy Corporation hereby submits an application for Pesticide Notification to propose an alternate brand name for Micropel IT4 DIDP (EPA Reg. No. 5383-128) in accordance with PR Notice 98-10. The alternate brand name for Micropel IT4 DIDP is as follows:

"Micropel IT4ESO"

To support this Notification of Alternate Brand Name, I am submitting an Application for Pesticide Notification and a copy of the label with the highlighted name change.

If you should have any questions or require additional information, please feel free to contact me directly at (973) 443-4200 Ext. 2285 or by email at rasicp@troycorp.com.

With kind regards,

Peko Rasic
Product Registration Specialist

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CAUSES EYE DAMAGE AND SKIN IRRITATION. MAY CAUSE ALLERGIC SKIN REACTION. MAY BE HARMFUL IF INHALED. MAY BE HARMFUL IF SWALLOWED. Do not get in eyes, on skin, on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing vapor or mist. Keep container closed. Do not take internally. Use with adequate ventilation. Wash thoroughly after handling.

FIRST AID	
IF IN EYES:	<ul style="list-style-type: none">Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye.Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none">Take off contaminated clothing.Rinse skin immediately with plenty of water for 15-20 minutes.Call a poison control center or doctor for further treatment advice.
IF SWALLOWED:	<ul style="list-style-type: none">Call Poison Control Center or Doctor immediately for treatment advice.Have person sip a glass of water if able to swallow.Do not induce vomiting unless told to do so by the poison control center or doctor.Do not give anything by mouth to an unconscious person.
IF INHALED:	<ul style="list-style-type: none">Move person to fresh air.If person is not breathing call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible.Call a poison control center or doctor for further treatment advice.
HOTLINE NUMBER:	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.	
NOTE TO PHYSICIAN:	
Probable mucosal damage may contraindicate the use of gastric lavage.	

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment authority. For guidance contact your State water board or Regional Office of the EPA.

One Avenue L, Newark, N.J. 07105

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. MICROPEL® IT4ESO is an antimicrobial solution for industrial use. It is designed to be incorporated into materials to impart antimicrobial activity to the manufactured materials and products. Bacterial and fungal growth cause permanent staining or discoloration, embrittlement and premature failure of finished products. MICROPEL® IT4ESO will help preserve product integrity by suppressing bacterial and fungal growth in treated products. Products containing MICROPEL® IT4ESO may not make claims of antimicrobial activity other than protection of the article itself against growth of bacteria and mold in the treated article. If growth of bacteria and mold in the treated article would lead to unpleasant odors and discoloration of the treated article, then such a claim may be made. The amount of MICROPEL® IT4ESO needed to provide the proper protection depends upon the specific formulation and use conditions.

APPLICATION

MICROPEL® IT4ESO is suggested for polyvinyl chloride, polyurethane, silicone and latex polymers. Applications include: Vinyl film and sheeting – pool liners, pond liners, ditch liners, waterbed liners, shower curtains, protective covers, mats, insulators, barrier films. Extruded profiles – automotive moldings, weather stripping, appliance gasketing, wire and cable jacketing, foam gaskets, floor moldings. Plastics – vinyl flooring, laminating adhesives for industrial coated fabrics, adhesives for vinyl, ceramic and rubber flooring, adhesives for windows, grout and pipe sealants, sail cloth. Molded goods – vinyl floor tile, waste containers, injection molded automotive parts, shoe soles. Coated fabrics – wall coverings, upholstery, pillow and mattress ticking, backlit signs, awnings, tents, tarpaulins, protective covers, aprons, barrier fabrics. Coatings/Sealants – industrial urethane coatings, artificial leather, sail cloth, raincoats, silicone caulks for bathroom and industrial use, carpet backing. Foams – pillow and mattress foam, carpet underlay, gaskets, shoe soles.

MICROPEL® IT4ESO should not be used in treated articles which are intended to contact food or drinking water. MICROPEL® IT4ESO is compatible with most polymer formulations and will not discolor or detract from the protected product's chemical or physical properties. MICROPEL® IT4ESO can be conveniently incorporated into the formulation during the mixing or compounding process.

MICROPEL® IT4ESO is suggested at concentrations between 2% and 5%. For outdoor applications, a level of 5% MICROPEL® IT4ESO is suggested in PVC formulations for maximum effectiveness. Micropel LLC maintains extensive testing facilities in order to assist the manufacturer in determining the optimum level of biocidal agent required for each product.

MICROPEL® IT4ESO is incorporated into a compound by substituting the required level (2.0% or 5.0%) for an equal amount of plasticizer or polyol. For example, in a 1000 lb. batch containing 300 lbs. of plasticizer and requiring a 3.0% Micropel antimicrobial level, 30 lbs. of the plasticizer or polyol would be replaced with 30 lbs. of appropriate Micropel antimicrobial. It is important to remember that the final cost of using Micropel antimicrobials is, therefore, calculated as the difference in cost between the Micropel antimicrobial as well as the replaced plasticizer.

MICROPEL® IT4ESO should be added early in the blending operation to assure homogeneity.
NOTICE

Our suggestions for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage.

PESTICIDE STORAGE: Do not store in the presence of food or feed. OBPA that cannot be used according to label instructions must be disposed of according to Federal or approved State procedures under subtitle C of the Resource Conservation and Recovery Act (RCRA).

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.
