

INHIBICIDE 59-P

For corrosion inhibition and algal control in industrial recirculation water systems and cooling towers.

APPLICATION

100 to 125 ppm INHIBICIDE 59-P should be added to cooling water periodically as needed to control algae.

<u>ALGICIDAL ACTIVE INGREDIENT</u>	<u>Percent By Weight</u>
Copper Sulfate	11 %
<u>ALGICIDAL INACTIVE INGREDIENTS</u>	89 %
	<u>100 %</u>
 <u>CORROSION INHIBITORY INGREDIENTS</u>	 65 %

Net Weight: 50, 150 or 300 pounds, marked on container according to size.

CAUTION: "HARMFUL IF SWALLOWED"
