NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 5427-88" to your label before you release the product for shipment.
3. Change the statement "Water for Air Washers" to read "Air Washing that maintain effective mist eliminating components."
4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of your proposed label with our acceptance stamp is included with this registration with the understanding that you will comply with the conditions in the attachment to the registration notice.

WRICO DCA

INDUSTRIAL WATER BIOCIDES

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER:

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance contact your regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS:

Strong oxidizing agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire explosion. In case of contamination or decomposition do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volume of water if necessary.

Active Ingredient: Trichloro-s-triazinetriene 99.4%
Inert Ingredients: 0.6%
Provides 89% available chlorine
EPA Reg. No. 5427-
EPA Est. No. 5427-IL-2

KEEP OUT OF REACH OF CHILDREN

DANGER

PRACTICAL TREATMENT: FIRST AID

If swallowed feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.
If on skin: brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.
If in eyes: flush with cold water for at least 15 minutes. Get medical attention.
SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL

NET CONTENTS 100 Lbs.

Wrico DCA industrial water biocide is recommended for use in either industrial cooling water or in industrial water for washing air.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

INDUSTRIAL COOLING TOWER WATER

For badly fouled systems add 3/4 to 1-1/2 lbs. of Wrico DCA industrial water biocide daily for each 10,000 gallons of system water. This provides 10 ppm and 30 ppm available chlorine respectively. Repeat each day until the system is free of visible fungi and algal slime. This condition is usually indicated when a free available chlorine residual of at least 1 ppm is found 4 hours after the treat-

ment. When a system is treated with 2-1/2 or 5 oz. of water biocide per 10,000 gallons of system water, there will be 10 ppm free available chlorine residual. These amounts may vary as required and determined by test conditions and by test method. Reliable test kit for available chlorine should be used. Wrico DCA industrial water biocide should be used from the container in the system where it is used with the water.

WATER FOR AIR WASHING

In starting up a system add 6 oz. Wrico DCA industrial water biocide per 10,000 gallons of water. This provides 4 ppm available chlorine residual. For control add 3/4 lb. of industrial water biocide per 10,000 gallons of water to maintain 0.5 to 1.0 ppm. These amounts may vary as required and determined by test conditions and test method. Reliable test kit for available chlorine should be used.

STORAGE AND DISPOSAL

Keep product dry in original container when not in use. Do not store in a dry well-ventilated area or open flame. Isolate container with large amount of water. All material be placed in trash collection or approved landfill place.
