

USE DIRECTIONS

This product is intended to be used in food processing plants, food stores and for general household cleaning, disinfecting and sanitizing.

Use at 2 ounces per gallon. This product will provide 500 ppm quaternary to the use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing.

For heavy soil, a precleaning step is recommended before using Cello Cleaner-Disinfectant-Deodorant.

For best results, use Cello Cleaner-Disinfectant-Deodorant with a cloth or mop and apply to walls, floors, and other hard surfaces. If used to sanitize precleaned food contact items, limit the level of active quaternary to 200 ppm (4 ounces per 5 gallons).

Rinse with potable water after sanitizing.

Do not mix with soap or anionic solutions.

Rinse empty container thoroughly with water and discard.

CELLO CLEANER-DISINFECTANT DEODORANT

For food processing plants, food stores and household use.

Phenol Coefficient, A.O.A.C. Method

S. Aureus..... 30

S. Typhosa..... 19

Active Ingredients:

Sodium Carbonate 3.0%

n-Alkyl (60% C₁₄, 30% C₁₆,
5% C₁₂, 5% C₁₈) dimethyl benzyl
ammonium chlorides 1.6%

n-Alkyl (68% C₁₂, 32% C₁₄)
dimethyl ethylbenzyl ammonium
chlorides. 1.6%

Inert Ingredients 93.8%
100.0%

Net Contents: _____ EPA Reg. No. 5429-22

DANGER

Keep Out of Reach of Children. See Right Side Panel for Additional Precautionary Statements and First Aid.

CELLO CHEMICAL COMPANY

Subsidiary of Grow Chemical Corp.

Baltimore, Maryland 21222

Cello Cleaner-Disinfectant-Deodorant will deodorize those areas which generally are hard to keep fresh smelling such as GARBAGE PAILS, SINK TOPS AND BATHROOM AREAS which are prone to odors caused by the growth of some micro-organisms. Effective against Staphylococcus aureus and Salmonella choleraesuis at 2 ounces per gallon. Also effective against pathogenic fungi, Trichophyton interdigitale, at this use dilution.

DANGER

Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes or on skin. Protect eyes and skin when handling concentrated product. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact with the eyes flush with plenty of water for at least 15 minutes and get immediate medical attention. In case of skin contact flush off immediately with plenty of water. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available drink large quantities of water. Call a physician immediately.
