## SWIFT'S SPECIAL DIAZINON ROACH SPRAY

READY TO USE U.S.D.A. REG. NO. 5440-X  
LOW ODOR - INDOOR SPRAY

ACTIVE INGREDIENTS: 100.00%

100% 0-diethyl 0-(2-isopropyl-4-methyl-6-pyridinyl) phosphorothioate . . . 1.0%  
petroleum Distillate . . . . . 99.0%  
TOTAL . . . . . 100.0%

U.S. Patent No. 2,754,143 (Diazinon)

### DIRECTIONS FOR USE:

SWIFT'S SPECIAL DIAZINON ROACH SPRAY is a 'ready-to-use' low odor insecticide to be applied with appropriate spray applicator equipment to control certain insects common to storage areas where non-toxic baits are stored. It is especially useful in controlling those resistant strains of insects which can no longer be controlled with chlorinated hydrocarbons.

ROACHES (WATERBUGS), ANTS, SILVERFISH AND SPIDERS: Apply as a contact spray or with a pump sprayer to cracks and crevices, baseboards, behind and beneath cabinets and equipment, and around water pipes. Spray in all the places where insects hide and along normal runways as recommended. BE CAREFUL TO AVOID DIRECT CONTACT with humans as far as possible. Treatment should be repeated as necessary.

### DIRECTIONS FOR USE:

SWIFT'S SPECIAL DIAZINON ROACH SPRAY is a "ready-to-use" low odor insecticide to be applied with appropriate spray applicator equipment to control certain insects common to storage areas where non-food items are stored. It is especially useful in controlling those resistant strains of insects which can no longer be controlled with chlorinated hydrocarbons.

ROACHES (WATERBUGS), ANTS, SILVERFISH AND SPIDERS: Apply as a coarse spray or with a paint brush to cracks and crevices, baseboards, behind and beneath cabinets and equipment, and around water pipes. Spraying in dark places where insects hide and along normal runways is recommended. HIT THESE INSECTS WITH DIRECT SPRAY whenever possible. Treatment should be repeated as necessary.
