CARDINAL PIMALARIN 92 NON-EMULSIFIABLE

A SPECIAL RESIDUAL CONCENTRATE

Net Weight 54.40 lb (24.7 kg)
 Active Ingredients:
 Petroleum Hydrocarbons 20.00%
 Malathion 34.40%

Handwritten notes:
 54.40 - 51
 3.40

This residual concentrate is a special formulation of Malathion and Petroleum Hydrocarbons. It is designed for use as a residual concentrate in pest control programs. The concentrate is non-emulsifiable and is intended for use in conjunction with a suitable emulsifier. The concentrate is highly effective against a wide range of insects and mites. It is particularly effective against house flies, mosquitoes, and other biting insects. The concentrate is also effective against ticks and mites. It is a long-lasting residual and provides continuous protection for several weeks. The concentrate is easy to apply and is suitable for use in a wide range of environments. It is particularly suitable for use in homes, hotels, and other buildings. It is also suitable for use in outdoor areas such as lawns and gardens. The concentrate is highly effective and is a valuable addition to any pest control program.

ACCEPTED

Jul 21 1947

This residual spray, when diluted at the rate of one part concentrate to 100 parts base oil, combines the synergistic and agitating characteristics of Pyrethrin-Piperonyl Butoxide synergisms and the residual quality of Premium Grade Malathion.

Cardinal Pimalarin #2, when diluted at the suggested rates, is a surface spray designed to combat exposed insects such as cockroaches, grain and flour weevils, flour and meal moths, ants, spiders, crickets, and carpet beetles. Use this product as wet course spray for residual protection in food processing plants, flour mills, grain elevators and empty grain bins. Do not apply where food other than grain will come in contact.

NOTE: NO WATER CAUTIONS: This product is not to be used in or near streams or ponds.

This material is formulated according to the regulations of the U.S. Department of Agriculture. It is the only formulation of malathion available for use as an insecticide on grain and there that are formulated with premium grade malathion. This is a highly refined grade of malathion.

NO WARRANTY: This material being subject to conditions of sale, the seller, Cardinal Chemical Company, nor the seller make any representation or warranty of effectiveness of use. The seller shall not be liable for any injury, results, from the use, handling or storage of said material, whether or not in accordance with directions. Acceptance of this material by the user is held to be an agreement to the foregoing terms and will release Cardinal Chemical Company and the seller from all liability. The manufacturer's only warranty is that the material conforms to the description on the label. Seller does not guarantee that the results of this material on all portions of the plants will not exceed the maximum limits established by the appropriate Government Agencies.

CAUTION

KEEP OUT OF REACH OF CHILDREN

DO NOT USE IF CONTAINER IS OPENED
