### DIRECTIONS FOR INDUSTRIAL USE

Space Spraying: Atomize with an Atomizer or Electric Sprayer. To kill Flies, Mosquitos and Gnats, atomize one pint of Card-O-Sect per 10,000 cubic feet of space. Keep doors and windows closed in order to obtain maximum results. Premises should be closed for at least ten minutes after spraying.

Contact Spraying: Power spray directly where possible on Roaches, Ants, Earwigs, Grain Mites, Spiders, Sawflies, Centipedes and Wasps. Spray with a Hand or Electric Sprayer or Compressed Air Spray Gun. For Wasps, application should be made in late evening when insects are at rest. Spray liberally into Wasps hiding and breeding places, contacting as many insects as possible. For Ants, spray trails, nests, and points of entry and on the ants themselves where possible. In general, for all listed insects, spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and stoves, under refrigerators, baseboards and storage areas. Spray directly on insects where possible. Repeat as necessary.

Decontaminate and Destroy Used Containers. Do not reuse for any purpose. Decontaminate containers by rinsing thoroughly with water and detergent. Destroy containers by breaking and burying fragments in isolated area. Dispose of rinsings in a way as not to constitute a hazard or contaminate water supplies.

Caution: Use this product as a spacespray in food processing plants only when plant is not in operation. Foods should be removed or covered and all processing surfaces should be covered or thoroughly cleaned before using. Do not remain in treated areas and ventilate the area after treatment is completed.
