NE - 1 INSECTICIDE

(Non-Emulsifiable) EPA Reg. No. 5440-100

ACTIVE INGREDIENTS:

• (5-Benzyl-3-furyl)ethyl 2,2-dimethyl-3-(2-methylpropenyl)cyclopropanecarboxylate...	1.000%
Related Compounds.....	0.138%
Aromatic Petroleum Hydrocarbons.....	1.500%
Petroleum Hydrocarbons.....	57.500%
INERT INGREDIENTS:.....	40.000%
• Cis/trans isomers ratio: max. 30% cis and min. 70% trans.	100.000%
• U.S. Patent No. 3,485,007	

DIRECTIONS FOR USE

This product is formulated for use in food processing plants.

Space Spraying: Automize with an Automatic or Electric Sprayer. To kill exposed stages of Flies, Gnats and Mosquitos, dilute one gallon of the concentrate with 3 gallons of Deodorized Spray Base. Apply as a mist, filling areas at least ten minutes. Food should be covered or removed during treatment and all processing surfaces thoroughly cleaned before using. Use this product as a space spray in processing plants only when plant is not in operation.

Contact Spraying: Power spray directly, where possible on Roaches, Grain Mites, Sowbugs, Spiders and Centipedes. Mix one gallon of concentrate with 3 gallons of Deodorized Spray Base. Agitation is desirable before using. Apply liberally into hiding places such as cracks and crevices, contacting as many insects as possible. However, this spray should not be applied to ceilings or walls near vessels that are to be used for processing foods since listed insects that are partially paralyzed may drop into the product being processed. In food processing plants, particularly flour and cereal plants the infested stock should be removed from machines, conveyors, etc. and those areas liberally sprayed.

Caution: Food processing surfaces should be thoroughly cleaned before using. Applications are not to be made when plant is in operation. Do not remain in treated areas, and ventilate the area after treatment is completed.

CAUTION:

KEEP OUT OF REACH OF CHILDREN
HARMFUL IF SWALLOWED

DO NOT USE THIS PRODUCT ON FOODS OR FEEDS. IT IS A PESTICIDE. IT IS TO BE USED ONLY ON THE SURFACES OF FOOD PROCESSING PLANTS. IT IS NOT TO BE USED ON FOODS OR FEEDS. IT IS TO BE USED ONLY ON THE SURFACES OF FOOD PROCESSING PLANTS. IT IS NOT TO BE USED ON FOODS OR FEEDS. IT IS TO BE USED ONLY ON THE SURFACES OF FOOD PROCESSING PLANTS.
