PREMIUM GRADE

CONCENTRATED INSECTICIDE X 10-1

5440-102

ACTIVE INGREDIENTS:

U.S.D.A. REG. NO. 5440-102

** * (5-Benzyl-3-furyl)methyl 2, 2-dimethyl -3-(2-methylpropenyl) cyclopropanecarboxylate.....	1.000%
Related Compounds.....	0.136%
Aromatic Petroleum Hydrocarbons.....	1.324%
Petroleum Hydrocarbons.....	92.532%
Polyoxyethylene Sorbitol Oleate-Laurate.....	5.000%

INERT INGREDIENTS:

*Cis/trans isomers ratio: max.30%(±) cis and min.70%(±) trans. 100.000%

**U.S. Patent No. 3,465,007

ACCEPTED

July 3, 1971

UNDER THE FEDERAL "INSECTICIDE AND FUNGICIDE ACT"

This spray possesses rapid knock-down properties, when one gallon of the concentrate is diluted with 6/8 gallons of water or Deodorized Spray Base, and applied at the rate of one gallon of the finished spray to approximately 1000 cubic feet of area. Do not apply the spray directly to food products.

When used as a space spray, this material will control the exposed stages of flies, Mosquitos & Gnats.

Use this product as a spacespray, filling the room with mist for at least ten minutes, in processing plants only when plant is not in operation. Caution: food should be removed or covered during treatment and all processing surfaces thoroughly cleaned before reusing. Caution: "Do not remain in treated areas, and ventilate the area after treatment is completed."

DIRECTIONS: Mix with water or Deodorized Spray Base at the rate of one gallon of concentrate to 6/8 gallons of water or Deodorized Spray Base. Agitation is desirable before using. Apply liberally and when necessary as a contact spray, directly where possible on Roaches, Earwigs, Grain Mites, Sowbugs, Spiders and Centipedes. However, this spray should not be applied to ceilings or walls near vessels that are to be used for processing foods since insects that are partially paralyzed may drop into the product being processed. In food processing plants, particularly flour and cereal plants, the infested stock should be removed from machines, conveyors, etc., and those areas liberally sprayed should be washed thoroughly before reuse.

CAUTION:

KEEP OUT OF REACH OF CHILDREN

HARMFUL IF SWALLOWED

DECONTAMINATE AND DESTROY USED CONTAINERS. Do not reuse for any purpose. Decontaminate containers by rinsing thoroughly with water and detergent. Destroy containers by breaking and burying fragments in isolated area. Dispose of rinsings in a way as not to constitute a hazard, or contaminate water supplies. Apply this product only as specified on this label.
