

ALCO PARADE contains a balanced combination of highly effective compounds that will kill and repel horse flies, Stable flies, Horn flies, House flies, Mosquitoes and Gnats on horses.

ALCO PARADE aids in giving a hand brushed appearance and in the removal of dirt and dandruff. It helps to impart a high sheen and has a light, bright, pleasing fragrance.

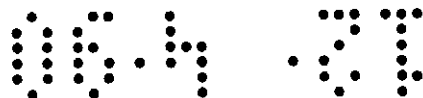

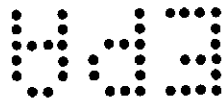

Instructions for Use:

Saturate (not wring wet) a piece of toweling, cellulose sponge or similar material and massage briskly against growth of hair. Cloth or sponge may be used a number of times but should be kept in a closed container to maintain its effectiveness.

Apply one to two ounces of PARADE per mature horse per day for a three day period to repel Horn flies, Stable flies, Houseflies, Mosquitoes and Gnats. Apply every other day thereafter or when these insects disturb the animal. In hot, dusty areas daily applications may be needed, especially if pests are numerous. Several daily applications may give a buildup of more lasting effectiveness and thereafter applications can be made at intervals as required.

NOTICE: This product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Manufacturer is not responsible for the use of this product contrary to the label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

NET CONTENTS: 1 PINT (16 FL. OZ.)

PRECAUTIONARY STATEMENTS

CAUTION
