Attention: W.R. Crain

Gentlemen:

Subject: Pyrethrin Fly Spray
EPA registration no. 5481-35
Your letter dated June 17, 1988

The proposed amendment to the registration of the product cited above under the Federal Insecticide, Fungicide, and Rodenticide Act, rearranging the label format and adding a Statement of Practical Treatment is acceptable subject to the comments listed below. A stamped copy of the draft label is enclosed for your records. Five copies of the finished printed label must be submitted before the product is released for shipment under this amended label.

1. Change the statement "Do not contaminate water by cleaning of equipment or disposal of wastes" to read "Do not contaminate water when disposing of equipment washwaters."
2. The Confidential statement of formula (CSF) on record for this product does not meet current requirements. Submit the required EPA Form 8570-4 (rev. 2-85). A blank copy is enclosed for your use. All applicable items must be completed correctly. Note that you are required to include in the form certified limits for each component introduced into your product (formulation). Also you must specify in the CSF certified limits for each active ingredient so declared on the proposed label for your product. The certified limits for the active ingredients must be expressed as pure active ingredients. Note also that the certified lower limits for the active ingredients expressed therein cannot be lower than your label declarations for the active ingredients. In other words, the current regulations as

PYRENONE® FLY SPRAY

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ALCO PYRENONE® FLY SPRAY is a specially formulated Ready-To-Use spray that will give a quick knockdown and kill of House Flies, Horn Flies, Stable Flies, Gnats, & Mosquitoes. This product can be used as a space or contact spray.

DAIRY CATTLE

SUPPRESSION OF FACE FLIES - Apply 2 fluid ounces to the face, and forehead daily. Split the application using 1 ounce at morning milking and 1 ounce at evening milking. Do not spray into eyes. Daily treatment will be necessary for continued control.

HORN FLIES: Apply two fluid ounces per adult animal, per day. Treat entire back line of animal, including withers & belly. Daily treatment will be needed for continued control.

USE FLIES, STABLE FLIES, GNATS AND MOSQUITOES: Apply two fluid ounces as mist spray per animal, per day. Apply once, before or after morning milking as a thorough spray to cover entire body of the animal before turning to pasture. Avoid wetting animals hide.

LICE: - (Blood Sucking and Biting) - Apply 2 to 2 1/2 ounces per animal. Pay particular attention to complete spray coverage of flanks, back and shoulder areas. Use a stiff brush to get spray to base of hair. Repeat every 2 to 3 weeks as required for continued control.

PREMISE TREATMENT
FOR FLIES, GNATS AND MOSQUITOES

MILK ROOMS, MILKING BARNS, ANIMAL PENS, POULTRY HOUSES, FOOD PROCESSING PLANTS, BARNS: Apply as a SURFACE SPRAY, to point of runoff, on walls, & other vertical surfaces where insects alight or rest. Contact as many insects as possible with spray.

MIST SPRAY: Close all doors & windows, ventilators if possible, to reduce movement as much as possible. Fill room with mist, directing spray upward toward ceiling, directing spray to contact as many insects as possible. Keep room closed for at least 10 minutes. Air out and sweep up all dead insects and destroy. Repeat as needed for continued control.

FLEA CONTROL

HOMES, ANIMAL QUARTERS: Apply spray thoroughly to floors, cracks, crevices, baseboards, wall cracks, animal bedding (replace with fresh clean bedding), applying spray directly to insects as much as possible. Repeat treatment as needed for control.

ANT CONTROL

Direct spray to Ant trails, applying directly to Ants where possible. Spray around door sills, window frames and other areas where Ants can enter the building. Repeat treatment as needed for control.

BEST AVAILABLE COPY

ROACH CONTROL

Thorough application to hiding places is necessary for control. These include cracks, crevices, under sinks, around pipes, baseboards, door frames, window frames, storage shelves, under refrigerators, & other areas where Roaches have been seen running and hiding. Apply directly to roaches where possible. Repeat treatments as needed for control.

PYRENONE® FLY SPRAY

IMPORTANT

When making applications in food processing plants or milk rooms, cover or remove all foods and milk during treatment. In food processing plants, apply as a mist spray only when plant is not in operation. All food processing surfaces should be covered during treatment. Clean thoroughly with potable water after treatment.
In milk rooms, cover all milk handling equipment and utensils before treatment. Clean thoroughly after treatment. Do not apply when in operation. Keep all person out of treated areas until aired out.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Do not breathe spray mist. Wash thoroughly after handling and before eating or smoking. Do not contaminate feed, foodstuffs, milk or milking utensils. Remove animals before premise treatment. In animal quarters, remove or protect water and feed before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes. Remove fish bowls, and birds prior to spraying. Cover or remove exposed water, feed, food or utensils before spraying. Apply this product only as specified on this label.

PHYSICAL AND CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store product in its original labeled container in a cool, dry, locked place out of reach of children. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Triple rinse or equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities. **HOUSEHOLD:** Do not reuse empty container. Rinse thoroughly before discarding in trash.

NOTICE: This product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use. Manufacturer is not responsible for the use of this product contrary to the label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the manufacturer and/or seller and the buyer assumes the risk of any such use.
