

548-41

# DDVP I SPRAY

**INSECTICIDAL CONCENTRATE**

CONTAINS 1 POUND DDVP PER GALLON.

**FOR CONTROL OF FLIES, ADULT MOSQUITOES, GNATS,  
FLEAS, ROACHES, ANTS, SOWBUGS, AND  
BROWN DOG TICKS.**

ACTIVE INGREDIENTS	% By Weight
2,2-dichlorovinyl dimethyl phosphate	12.10%
Related compounds	.91%
Aromatic petroleum derivative solvent	80.46%
<b>INERT INGREDIENTS</b>	<b>6.53%</b>
	<b>100.00%</b>

**DANGER: KEEP OUT OF REACH OF CHILDREN**

Cameraman's Note

Poor Copy

Do not use, pour, spill, or store near heat or open flame.

CONTAINER DISPOSAL

Decontaminate and destroy container when empty. Rinse container thoroughly with detergent and water when empty. Dispose of rinsings in a manner so as to not create a hazard, away from any water. Puncture and crush metal containers, break glass containers and bury in a safe place away from any water. Never reuse container.

FISH AND WILDLIFE PRECAUTIONS

This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DANGER

Poisonous if swallowed, inhaled or absorbed through skin or eyes. Do not get on skin or in eyes. Do not breathe fumes. Avoid exposure to fumes. Wash thoroughly after using and before smoking or eating. Do not contaminate feed, foodstuffs, water, milk or milking utensils. Wear rubber gloves, goggles or face shield and water-proof protective clothing when handling the concentrate during mixing operations. Wear a mask or respirator of a type passed by the U.S. Bureau of Mines for use with DDVP. KEEP ALL UNPROTECTED PERSONS OUT OF OPERATIONAL AREA. In case of contact, wash immediately with soap and water. Wash all contaminated clothing with soap

If vomited, induce vomiting immediately by inducing gag reflex with the  
finger or give 1 teaspoon of salt in a glass of warm water. **DO NOT  
ADMINISTER BY MOUTH TO AN UNCONSCIOUS PERSON.**

#### EXTERNAL

If spilled on the skin, immediately remove patient from the vicinity of  
the insecticide, remove all contaminated clothing and wash skin with soap and  
running water. For eye contamination, flush immediately with running water for  
at least ten minutes. Get medical attention.

**IF WARNING SYMPTOMS APPEAR:** Administer two 1/100 grain atropine tablets  
immediately. **NEVER ADMINISTER ATROPINE UNLESS WARNING SYMPTOMS APPEAR.**  
(See WARNING SYMPTOMS below.)

Keep patient prone and quiet.

Start artificial respiration immediately if patient is not breathing.

Transport patient immediately to the nearest physician.

#### NOTE TO PHYSICIAN

**WARNING SYMPTOMS:** Symptoms include weakness, headache, tightness in  
chest, blurred vision, non-reactive pin point pupils, salivation, sweating,  
nausea, vomiting, diarrhea and abdominal cramps.

**TREATMENT:** Atropine is the specific therapeutic antagonist of choice  
against parasympathetic nervous stimulation. If there are signs of  
parasympathetic stimulation, atropine sulfate should be injected at 10  
minute intervals, in doses of 1 to 2 milligrams until complete atropinization  
has occurred.

**Morphine is contraindicated.**

**Clear chest by postural drainage.**

ALCO FLY KILLER BAIT

FRONT PANEL

Net Weight: 1/2 lb. Fly Bait  
Contains 100% Fly Bait

ALCO FLY KILLER BAIT

Mr. A. J. Meyer, Fly Killer, Inc.,  
Fly Killer, Inc.,  
Fly Killer, Inc.

One half pound contains 100% Fly Bait.

ACTIVE INGREDIENTS	PER WT.
0,2-dichlorovinyl dimethyl phosphate. . . . .	0.03
Related compounds. . . . .	0.07
INERT INGREDIENTS	99.90
	<u>100.00%</u>

WARNING: Keep out of reach of children.  
See back panel for additional cautions.

Net Contents: One Half Pound

BACK PANEL

USE ONLY AS DIRECTED. READ ENTIRE LABEL BEFORE USING.

Store in a cool dry place. Keep closed to preserve strength.  
May be used wet or dry. Kills flies fast - in seconds.  
**Simply walk and scatter lightly.**

ALCO FLY KILLER BAIT is especially formulated to kill flies fast and to provide longer residual fly control. Flies die within seconds after contacting or feeding on a particle of bait. The same bait particle may kill many flies before it loses its effectiveness. Scatter lightly on small areas where flies are a problem.

DIRECTIONS: Patios, Swimming Pools, Dog Runs - Outdoor use only. Scatter ALCO FLY KILLER BAIT lightly on areas where flies are a problem. The bait will kill flies on contact and provide residual control. Repeat as necessary. Repeated use will keep the fly population below the nuisance level.

Garbage Cans: Apply lightly around and inside garbage can. Repeat as necessary.

**UNLESS WARNING SYMPTOMS APPEAR. (See WARNING SYMPTOMS below.)**

Keep patient prone and quiet.

Start artificial respiration immediately if patient is not breathing.

Transport patient immediately to the nearest physician.

**NOTE TO PHYSICIAN**

**WARNING SYMPTOMS:** Symptoms include weakness, headache, tightness in chest, blurred vision, non-reactive pin point pupils, salivation, sweating, nausea, vomiting, diarrhea and abdominal cramps.

**TREATMENT:** Atropine is the specific therapeutic antagonist of choice against parasympathetic nervous stimulation. If there are signs of parasympathetic stimulation, atropine sulfate should be injected at 10 minute intervals, in doses of 1 to 2 milligrams until complete atropinization has occurred.

Morphine is contraindicated.

Clear chest by postural drainage.

Repeated exposure to cholinesterase inhibitors may, without warning, cause cholinergic crisis. Do not use more than one cholinesterase inhibitor. Allow no further exposure until time for cholinesterase regeneration has been allowed as determined by blood test.

**DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.**
