ED UNDER NO. 2781-2 SUBJECT
TO ATTACHED COMMENTS.

ALCOPON GRASS KILLER will control such perennial grasses as Bermuda grass, Johnson grass, Quackgrass and such annual grasses as Annual Bluegrass, Foxtail and Watergrass.

ALCOPON GRASS KILLER can be used in such areas as patios, around the base of trees and shrubs, fences, for edging walks, driveways and planter beds, as well as for lawn renovation, and control of weedy grasses in Dichondra and Ivy.

USE ONLY AS DIRECTED

READ ENTIRE LABEL BEFORE USING.

DIRECTIONS: General Usage; ALCOPON GRASS KILLER can be applied with a sprinkling can, hose end proportioner or sprayer. To mix, fill applicator one third full of recommended water then add the recommended amount of ALCOPON GRASS KILLER and stir until dissolved, add remaining amount of water.

For best results apply ALCOPON GRASS KILLER when grasses are actively growing but before seed stalks develop. It is important to wet all foliage thoroughly to the point of run off. Grasses should be resprayed as necessary.

GRASS CONTROL: GENERAL OR BROADCAST TREATMENT: Apply 8 ounces or 24 level tablespoonsful of ALCOPON GRASS KILLER per 1000 square feet. Use a sprayer or hose proportioner to wet the grass without extensive run off.

SPOT TREATMENT: Mix 8 level tablespoonsful of ALCOPON GRASS KILLER in one gallon of water. Spray to wet grasses, using a back pack sprayer or pump-up type. If a sprinkling can is used, mix 4 level tablespoonsful of ALCOPON GRASS KILLER in one gallon of water and sprinkle to wet grass. Using a hose proportioner (1 pint or 1 quart capacity container) mix 8 level tablespoonsful of ALCOPON GRASS KILLER in one pint of water and apply to wet the grass at a 1 to 8 volume ratio.

DO NOT DRENCH OR APPLY EXCESSIVELY

Treat grasses close to established tree trunks using 4 level tablespoonsful of ALCOPON GRASS KILLER per gallon of water. Apply to just wet the grass using a pump up sprayer. Do not soak the area. Do not use around small shrubs, newly planted trees, or trees less than 4 years old.

GRASSY WEEDS IN DICHONDRA AND IVY: For control of Bermuda Grass and young stages of Bluegrass and Crabgrass. Apply only to mature Dichondra, never on newly seeded or transplanted areas. Dichondra lawns should be in good growing condition prior to treatment. If not, fertilize lawn thoroughly, water 5 to 7 days before applying ALCOPON GRASS KILLER. Apply only in spring or early summer when weedy grasses are young and green. Wet leaf portions of the weedy grasses with a fine mist spray. Use just enough water to wet the foliage. Do not soak the soil. Do not use a watering can or fertilizer nozzle.

FOR SPOT TREATMENT: Mix two level tablespoonsful of ALCOPON GRASS KILLER in 5 quarts water. Apply to leaf blades only as directed above.

FOR BROADCAST or OVER ALL COVERAGE: Apply no more than two ounces ALCOPON GRASS KILLER per 1000 square feet. (Two level tablespoonsful equal 24 ounces). Apply in sufficient water to give good coverage, making sure that leaf blades of weedy grasses are covered.

LAWN RENOVATION: Mow dead vegetation if present. Wait two weeks for new grass growth, then spray thoroughly, using 1/2 pound ALCOPON GRASS KILLER in 4 gallons of water per 1000 square feet. After 2 to 3 weeks, water at least 15 minutes each day for 1 week. Wait for 4-6 weeks to seed, plug or sprig.

WARNING: To avoid injury to desirable plants, do not allow spray or drift containing ALCOPON GRASS KILLER to contact foliage or roots of such plants, including lawns or other desirable turf. Do not use close to ornamentals or fruit trees other than apple and pear. ALCOPON GRASS KILLER in the soil may inhibit seed germination and plant growth for 30 days or more, depending on dosage, soil type, temperature and rainfall. Accordingly, on land to be planted to grasses and garden crops, delay planting for at least 30 days.

CAUTION: CAUSES IRRITATION OF EYES, MAY CAUSE SKIN IRRITATION. Avoid Contact with Skin, Eyes, or Clothing. In case of contact, flush eyes with water for at least 15 minutes and get medical attention. For skin remove grossly contaminated clothing and wash skin with plenty of water. Wash clothing before re-use. Keep out of reach of children.
