

USER SAFETY RECOMMENDATIONS
Users should: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. Do not apply this product through any type of irrigation system.

AGRICULTURAL USE REQUIREMENTS
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted-entry interval. The requirement in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls, waterproof gloves and shoes plus socks.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
STORAGE: Store in a cool, dry, locked place out of reach of children. Do not store in direct sunlight. Do not store at temperatures of 32°F or below.
CONTAINER DISPOSAL: Do not reuse empty container. Wrap and put in trash collection.

USE ONLY AS DIRECTED READ ENTIRE LABEL BEFORE USING

A foliar spray of OLIVE STOP will reduce or eliminate undesirable fruit in ornamental-flowering pear, plum, and olive trees. For use on those plants intended for aesthetic purposes or climatic modification and grown for ornamental gardens, parks, golf courses, lawns and grounds.

Ornamental Olive Fruit Elimination

For best results, OLIVE STOP should be applied when the olives are in full bloom but before fruit set. During periods of extended bloom, more than one spraying will be necessary. When extended bloom occurs, spraying should be started between half and three fourth bloom with a second spraying applied 7 to 14 days later. If necessary a third spray can be applied at 7 to 14 days after the second. In certain desert areas control has been achieved even after fruit has reached pin head to small shot size, but best results occur prior to fruit set.

OLIVE STOP

Prevents Fruiting of Ornamental - Flowering Pear, Plum and Olive Trees

ACTIVE INGREDIENT:	
1-Naphthaleneacetic acid, Ammonium Salt*	5.68%
INERT INGREDIENTS:-	94.32%
Total	100.00%

*Equivalent to 5.2% 1-Naphthaleneacetic acid
or 200 grams (0.44 lbs.) per gallon.

KEEP OUT OF REACH OF CHILDREN CAUTION

See Side Panel for Additional Precautionary Statements

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION: May be harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin, eyes or clothing. In case of eye contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear: long sleeved shirt and long pants, waterproof gloves, and shoes plus socks. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Avoid drift of spray vapors.

NET CONTENTS 1 GALLON

AMVAC CHEMICAL CORPORATION
4100 EAST WASHINGTON BLVD.
LOS ANGELES, CA 90023 U.S.A.

(Ornamental Olive Fruit Elimination; continued)
Apply to achieve full coverage of the tree. Mix 4 fluid ounces of OLIVE STOP in 10 gallons of water. To insure proper coverage of the spray material add 1/2 to 1 fluid ounce of a non-ionic wetting agent to each 10 gallons of spray mix. OLIVE STOP can be applied through any conventional spraying equipment.

Ornamental-Flowering Pear and Plum Fruit Elimination

Make a single application either at full bloom or during the period up to 5 days following full bloom. Apply to achieve full coverage. Mix 3 fluid ounces of OLIVE STOP in 10 gallons of water. To insure proper coverage of the spray material add 1/2 to 1 fluid ounce of a non-ionic wetting agent to each 10 gallons of spray mix. Spray trees thoroughly, wetting all foliage.

Should any non-target ornamental plants be close to sprayed trees, it is suggested they be covered, prior to spraying, with polyethylene sheeting or other materials.

When OLIVE STOP is properly applied, there is no injury to ornamental-flowering pear, plum and olive trees. However, OLIVE STOP should not be applied during the heat of the day or when temperatures are over 85°F as leaf curl may occur.

USE PRECAUTION: If you do not have experience using this product for ornamental tree fruit elimination, it is recommended that first, you use the product on a limited number of trees on a trial basis.

IMPORTANT: PLEASE READ BEFORE USE

By using this product, the user accepts the following: **LIMITED WARRANTY:** AMVAC warrants that (a) this product conforms to the chemical description on its label; (b) this product is reasonably fit for the purposes stated on its label, subject to the inherent risks referred to herein, when used in accordance with its directions; and (c) that the directions, warnings, cautions, and other statements on this label are based upon responsible experts' evaluations of reasonable tests of effectiveness, of toxicity to laboratory animals and plants, of residues on food crops, and upon reports of field experience. Testing has not been performed on all varieties of food crops, and plants, in all states, or under all application, weather and crop conditions. There are no express warranties other than those set forth herein. Amvac neither makes nor intends, nor does it authorize any agent or representative to make, any other warranty, express or implied. Amvac expressly excludes and disclaims all implied warranties of merchantability, fitness for particular purpose, or any other warranty of quality or performance.

This warranty does not extend to, and the user shall be solely responsible for, any loss or damage which results from the use of this product in any manner which is inconsistent with this label's directions, warnings or cautions.

User's exclusive remedy and Amvac's or seller's exclusive liability for any claim, loss, damage, or injury resulting from the use or handling of this product, whether or not based in contract, negligence, strict liability in tort, or otherwise, shall be limited, at Amvac's option, to replacement of, or repayment of the purchase price for, the quantity of product with respect to which damages are claimed. In no event shall Amvac or Seller be liable for special, indirect, or consequential damages resulting from the use or handling of this product. (06-AMV2 PM5 / 10-16-85)
