HOME LAWNS AND OTHER ORNAMENTAL TURF AREAS DIRECTIONS FOR USE

TOTAL

100.0 ...

For control of Chinch Bugs and Sod Webworms infesting home lawns and other ornamental turf areas: apply Dursban Granules 1 uniformly to home lawns and other ornamental and recreational turf grass areas using any hand or power operated gravity or rotary type spreader designed for application of granular materials. Treat when insects first appear at the rate of 100 pounds per acre. To help obtain uniform distribution, apply one-half the required amount of product in one direction, then apply the balance at a right angle. Immediately after application sprinkle the turf with 1300 gallons of water per acre so as to wash the granules into the zone of insect infestation. Consult the following table to determine amounts of Dursban Granules 1 and water needed for smaller sized areas. Re-treat as necessary.

RATES TO USE

Area to be Treated		Pounds of Dursban Granules 1	Gallons of water to sprinkle on turf after treatment
1000 Sq. Ft.	•	2.2	30
5000 Sq. Ft.	,	121)	150
