

[5481-153]

ALCO DAIRY CATTLE AND LIVESTOCK SPRAY is a special formulation containing MGK R326 FLY REPELLENT. Its repellent action protects cows from deer, horn, house, and stable flies in the pasture between milkings. This reduces the discomfort and annoyance caused by flies which often decreases milk production and weight gain. READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS AND DIRECTIONS.

USE ONLY AS DIRECTED. READ ENTIRE LABEL BEFORE USING

DIRECTIONS

1 DAIRY
FOR CATTLE: To protect DAIRY STOCK from horn fly, deer flies, horse flies, stable fly, house flies, mosquitoes and gnats, spray daily using 1 to 2 ounces per head for 3 days then spray only every other day as needed. Cover the animal with spray, especially the back, flanks and legs. Do not soak the skin or wet the hide. Avoid treating areas around eyes, nose and mouth. The daily spray builds up a deposit of repellent that will protect the animal for 2 or 3 days before another treatment is needed. CALVES should be sprayed lightly once a day instead of trying to build up a residual deposit with heavier applications.

2
FOR HORSES: Spray lightly on horses using 1 to 2 ounces (2 to 4 tablespoons) per adult animal, use proportionately less on smaller animals. Be sure to treat shanks, legs and shoulders as flies are generally more annoying on these areas. Apply until hair is moistened, but DO NOT WET the hide. Horses are more sensitive than most animals to insecticidal oils. Use sparingly and with caution - blistering and loss of hair may result from too heavy an application.

3
FOR PIGS: Spray lightly where flies congregate. Repeat as needed.

LICE control LIVESTOCK: Treat animal with 2 ounces (4 tablespoons) of ALCO DAIRY CATTLE AND LIVESTOCK SPRAY. Immediately rub into hair paying particular attention to infested area. Repeat as necessary but not more than once every 3 weeks.

For control of FLIES, MOSQUITOES, and GNATS in barns and stables: Close all doors and windows and direct the spray toward the ceiling. Keep the barn or stable closed for 10 to 20 minutes. Sweep up and destroy fallen insects. Repeat as necessary.

ALCO DAIRY CATTLE AND LIVESTOCK SPRAY provides repellency towards flies, gnats, mosquitoes and household ants and kills those insects hit by the spray. Continued treatment of surfaces builds up and increases the repellent effect.

CAUTION: Harmful if swallowed. Keep out of reach of children. Do not use or store near heat or open flame. Avoid contamination of milk, food or foodstuffs.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse container. Destroy when empty.

DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.

ALCO

DAIRY CATTLE and LIVESTOCK SPRAY

WITH MGK REPELLENT*

Protects cattle and livestock against HORSE FLIES, HORN FLIES, STABLE FLIES, MOSQUITOES. Also kills flies, mosquitoes, and gnats in barns and stables.

Contains MGK R326* and Pyrethrins plus synergists
Affords practical pasture protection

ACTIVE INGREDIENTS

	% By Weight
Petroleum hydrocarbons	99.49%
Di-n-propyl isocinchomeronate*	0.20%
N-octyl bicycloheptene dicarboximide**	0.16%
Technical piperonyl butoxide***	0.10%
Pyrethrins	0.05%
*MGK R326	
**MGK 264	100.00%

***Equivalent to 0.08% (butyl-carbityl) (6-propyl piperonyl) ether and 0.02% related compounds.

CAUTION: KEEP OUT OF REACH OF CHILDREN
SEE SIDE PANEL FOR ADDITIONAL CAUTIONS
