Metam Alliance's Request on Your Behalf to Amend Label

Dear Mr. Chart:

In the Agency letter of April 30, 2010, the Agency approved amended labeling for this registration with the condition that specific label revisions be made to the April 30, 2010 label stamped "Accepted with Comments". This letter further amends the April 30, 2010 letter by revising the label comments and by requiring additional changes.

1. (Label p.3) (EPA Comment 3-b) (Alliance issue #17)  
Replace EPA's comment with this text:
  - In the "User Safety Requirements" section, add the following sentences, "DO NOT transport contaminated clothing inside a closed vehicle unless stored in a sealed container. Wash or dispose as specified."
2. (Label p.3) (EPA Comment 3-d) (Alliance issue # 1)  
Replace EPA's comment with this text:  
To the "Directions for Use" section, add the following text: "Do not apply when wind speed favors drift beyond the area intended for treatment. Do not use in a greenhouse or any other enclosed structure or confined area."
3. (Label p.3) (EPA Comment 3-e) (Alliance issue # 3)  
Disregard EPA's comment to add additional California restrictions back on the label.
4. (Label p.5) (EPA Comment 5-a) (Alliance issue #7)  
Replace EPA's comment with this text:
  - At the end of the "Protection for Handlers" section, add the following sentence:

“Cartridges or canisters must be replaced when odor or irritation from this product becomes apparent, if the measured concentration of MITC is greater than 6000 ppb, or after 8 hours of use, whichever occurs first.”

5. (Label p.19) (Alliance issue # 32)

In the “Observe the Following Precautions...Public Water System” section, revise the text as follows:

- Any alternatives to the ~~above~~ required safety devices in this label must conform to the list of EPA-approved alternative devices.

The label associated with these changes has been previously stamped “Accepted with Comments” and is dated April 30, 2010. Submit one copy of the final printed label that incorporates the required changes before the product is released for shipment.
