

DO NOT SPRAY ON GRASS OR PLANTS

For control of insects in the yard use our CBS 45, an emulsion type spray to be mixed with water.

CAUTION

Harmful if swallowed. Contact with skin can cause toxic symptoms. In case of contact with skin, wash with soap and water. Avoid breathing spray mist. Do not contaminate feed and foodstuffs. Do not use in commercial food preparation areas or in edible products areas of food processing plants. Do not use or store near heat or open flame. Some asphalt tile, linoleum, and plastic materials are harmed by petroleum base insecticides. If in doubt, cover with newspapers before spraying.

DO NOT USE AS SPACE SPRAY

OUR GUARANTEE

We guarantee satisfactory results with our Roach and Ant Spray or your money will be refunded. Return container with unused portion for refund.

OLD PRO
Ready-To-Use

ROACH & ANT SPRAY

ONE QUART

WARNING:
KEEP OUT OF REACH OF CHILDREN

SEE SIDE PANEL FOR ADDITIONAL CAUTION

DIRECTION FOR USE

The basic idea is to treat the harbourages and surfaces over which the insects crawl. The invisible residue left on the treated surfaces persists for several weeks and kills insects when they come in repeated contact with it.

Apply with a sprayer providing a coarse wet spray or by paint brush or by similar means. Do not use as a space spray and do not spray near open flame. Do not smoke while spraying.

TO CONTROL ROACHES AND WATERBUGS -

Make thorough application to infested cracks and other hiding places and adjacent exposed surfaces where roaches and waterbugs will crawl when they come out of hiding. Apply around pipes, under sinks, stoves, refrigerators, cabinets. Repeat when necessary to get effective control.

SILVERFISH -

Make thorough application around baseboards, areas behind shelving, book cases and storage areas. Repeat when necessary to get effective control.

ANTS -

Make thorough application around ant trails, door sills and window frames where ants may enter. It is often desirable to treat around water pipes, heating ducts, electrical outlets and baseboards, etc. Repeat when necessary. To control ants outdoors use our CBS-45.

It mixes with water. Does not harm plants or grass.

SPIDERS -

Make thorough application around infested areas such as baseboards, corners, around pipes and storage areas. Repeat when necessary to get effective control.
