AAPEDINT

1 kg

For Experimental Use Only
For the Prevention and Treatment
of Sclerotium Tuliparum in Tulips

ACTIVE INGREDIENTS: Tetrachloronitrobenzene 40%

DIRECTIONS: For best results it is advisable to have the bulbs slightly moist by leaving them exposed overnight under an open shed. Apply at the rate of 2½ oz per 100 bulbs.
Place 100 bulbs and 2½ AAPedint in heavy paper bag, close bag and shake gently until bulbs are uniformly coated. Plant bulbs at once.

CAUTION: Avoid inhaling dust. The material may cause skin irritation. Wash face and hands thoroughly after using. Wear protective clothing and a respirator when dusting bulbs.

DANGEROUS

KEEP OUT OF REACH OF CHILDREN

Product of The Netherlands

Camerman's Note
Poor Copy
