GRO-WELL 75% CHLORDANE

Gro-Well Emulsifiable Chlordane may be mixed with water and applied with any sprayer attached to a hose such as the Gro-Well Lawn Sprayer or with a watering can. Read directions before using.

DIRECTIONS

LAWN INSECTS: Apply 4 ozs. of Gro-Well Chlordane in a solution of 7 to 10 gals. of water to 1000 sq. ft. of lawn area for control of Jap Beetle Grubs, Chinch Bugs, Ants, Sod Webworms, Lawn Moths, Chiggers, Mole Crickets, White Grubs and certain other insects. For best results on sub-surface insects water in thoroughly after application. When using for and as a prevention against surface insects, it is advisable to repeat this treatment each year at one-half the rate given above without watering in, thus allowing Chlordane to remain on the surface.

FOR CRABGRASS CONTROL: To suppress crabgrass seedlings before germination occurs apply Gro-Well 75% Chlordane at the rate of 4 ozs per gallon of water to 170 sq. ft of lawn or 1 1/2 pints (24 ozs.) per 5 gallons of water to 1000 sq. ft. This is an early season preventive treatment and is not effective for the control of crabgrass plants. Timing of applications is important and must be applied 2 to 3 weeks prior to germination of early crabgrass growth. Consult your Garden Supply Dealer or County Agent for exact date.

TERMITES: For control and prevention of Termites, prepare a solution of 16 ozs. of Gro-Well 75% Chlordane in 5 gals of water. Dig a trench around the foundation of the building to be protected, 30 inches deep, and 6 to 8 inches wide, but not below the top of the footing if this is shallower. Pour some of the solution into the bottom of the trench. Treat soil with solution every 2 or 3 in as trench is re-filled. Apply at the rate of 1 gal. of solution for each running foot (ft. length) of your trench.

CAUTION: This concentrate if brought into contact with the skin may cause toxic symptoms. Avoid skin contact and inhalation. In case of spillage on the skin, wash off immediately with soap and water. Avoid contamination of feed, foodstuffs, and food containers. Do not use on animals or humans. Harmful if swallowed. Keep away from children.

NOTICE: We make no warranty of any kind, expressed or implied, concerning the suitability or results of this product. Buyer, user or handler assumes all risk of use or handling whether or not directions are followed.

ACTIVE INGREDIENTS: Technical Chlordane*	75.00%
Petroleum Distillates	10.00%
INERT INGREDIENTS	15.00%

*Equiv. to 45% Octachloro-4,7-Methano-tetrahydroindane and 30.% related compounds.
