

FLOWER AND ROSE SPRAY
 READ ENTIRE LABEL BEFORE USING

This ornamental spray may be used on plants, as a multi-purpose spray in small gardens, and for spot treatment of incipient insect and disease infestations to prevent spreading in large gardens.

This spray may be used on such plants as Roses, African Violets, Asters, Azaleas, Begonias, Camellias, Carnations, Chrysanthemums, Dahlias, Delphiniums, Dogwood, English Ivy, Euonymus, Fuchsia, Geraniums, Ornamental Grape Vine, Kentia Palm, Laurel, Marigolds, Rhododendrons, Rubber Plants, Snap Dragons, Stocks, Wandering Jew and Zinnias. As an insecticide, it is effective when used against aphids, spider mites, exposed thrips, lace bugs, Japanese beetles (hit by spray), pavement ants, clover mites, army worms, and many other insects.

As a fungicide, spray before infestation occurs for the prevention of powdery mildew and black spot on roses. Spraying at 7 to 14 day intervals, while danger of fungal infections persist.

TO OPERATE: (1) Remove protective cap. (2) Press button to release spray. (3) Hold can 1½ to 2 feet from plant being sprayed, avoid excessive wetting of foliage.

CAUTION: Do not spray Maiden hair Fern, Lantana or Cyclamen. Do not spray near open flame. Keep out of reach of children and do not store above 120°F. Do not burn or puncture container. Do not use near fish bowls or aquariums. Avoid breathing of spray mist or contact with skin. Do not leave in eyes or on skin. Wash thoroughly. May be a skin irritant and sensitizer. Avoid contamination of feed and foodstuffs. We make no warranties of any kind expressed or implied concerning the use or results of this product and Buyer assumes all risk of handling whether in accordance with directions or not.

ACTIVE INGREDIENTS:

Pyrethrins	0.025%
Technical Piperonyl Butoxide*	0.256%
Rotenone	0.128%
Other Cube Extractives	0.236%
