

## CROSSEL CRABGRASS & BROADLEAF WEED KILLER

This will kill crabgrass, chickwood and most Broadleaf Lawn. Weeds such as Dandelion, Plantain, Knotwood, Spotted Spurge, Pennywort and Purslane. The best time to apply is in late afternoon and when plants are small and seed heads have not formed. Two or more applications 7 days apart may be needed until plants are dead. Application may be needed again later in season as new seedlings germinate. Read entire label and measure area carefully. The important factor is the amount of chemical applied to a given area. A coarse spray type sprayer that attaches to a hose, such as the GRO-WELL Lawn Sprayer, may be used.

FOR TEMPERATURE 80° AND ABOVE: Dilute 8 oz. of chemical with 5 Gallons of water and apply to 1000 sq. ft. of lawn.

FOR TEMPERATURE BELOW 80: Dilute 16 oz. of chemical with 5 Gallons of

water and apply to 1000sq. ft. of lawn.

EASTION: Soil should be moist and grass in good growing condition before and three days after treatment. If necessary water well day before, skip day of and day after treatment then water next two days. Do not use on newly seeded lawns until after 3rd mowing. Reseeding may be done 3 weeks later. As Bents, Fescues and Clover may be temporarily discolored use with care. Do not use same sprayer for other than lawn spraying. Do not use on St. Augustine, Carpet, or Centipede Grasses or on Bent Golf Greens.

In case of contact with eyes (flush Profusely with water) or if taken internally (induce Vomiting) contact Doctor immediately. Avoid breathing spray mist and contact with skin or clothing. Wash off immediately with warm soap and water. Avoid contamination of feed and foodstuffs. Do not spray or allow to drift on to desirable Flowers, Trees, Shrubs, Vegetables or into takes, streams or ponds. Coarse sprays are less likely to drift. Do not store near fertilizers, Seeds, Insecticides or Fungicides.

MOTE: Follow directions carefully, as use, storage and handling of this material is beyond the control of the seller, the buyer assumes all risks if directions given herewith are not strictly adhered to.

# ALSO CONTROLS: Dandelion, Plantain and Other Broadleaf Weeds.

## 2,4,5 T.P. SILVEX

is a truly selective weed killer. It is especially formulated to kill Chickweed and Clover. Dandelion, Plantain and many broadlest weeds are also controlled at the same rate of application.

WEED CONTROL IN LAWNS: For control of broadleaved plantain, buckhorn, common chickweed, mouse-eared chickweed, dandelion and legumes such as white clover and black medic in established turf, apply 1 oz. of 2,4,5 T.P. SILVEX in one gallon of water per 180 sq. ft. of lawn. Apply in fall or spring for best results. Do not apply to stoloniferous grasses such as bent, Bermuda, and St. Augustine.

CAUTION: To avoid damage to turf, do not spray in any manner which will cause excessive dosages. Avoid overlapping and double coverage when backing up, and at turns.

NOTE: — This solution can be applied in minutes with the Hose Applicator Sprayer. Place 8 oz. of 2,4,5 T.P. SILVEX in sprayer jar, fill with water and spray 1400 feet of lawn.

## 2,4,5 T.P. SILVEX

### WARNING

Do not apply 2,4,5 T.P. SILVEX directly to or otherwise permit it to come into contact with any desirable crop plant or ornamental plant (including, but not limited to, peanuts, okra, sweet potatoes, peppers, celery, flowers, ornamentals, grapes, deciduous and nondeciduous fruit trees,) and do not permit spray mists containing 2,4,5 T.P. SILVEX to drift into them, since even minute quantities may cause severe damage during both growing and dormant periods. Coarse sprays are less likely to drift. At elevated temperatures vaporization may cause injury to susceptible plants growing nearby.

Do not use 2,4,5 T.P. SILVEX on freshly seeded lawns until grass has become well established. Do not contaminate irrigation ditches or water used for domestic purposes. Do not store near fertilizers, seeds, insecticides or fungicides. To avoid injury to desirable plants, do not store, handle or apply other agricultural chemicals with the same containers or equipment used for 2,4,5 T.P. SILVEX.

Be sure that use of this product conforms to all applicable regulations.

CAUTION! MAY CAUSE SKIN IRRITATION!
Avoid Contact with Eyes, Skin and Clothing

NOTICE TO BUYER: Buyer assumes all risk of use, storage or handling of this material not in strict accordance with directions given herewith
