FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTER-
ED UNDER NO. 5535-47 SUBJECT
TO ATTACHED COMMENTS.

INERT INGREDIENTS FOR USDA Reg. No. 5535-47

Inerts from Kelthane MF	25.60%
Xylene	55.90%
Total	81.50%

**A MITICIDE
FOR USE ON ORNAMENTALS,
FRUITS AND VEGETABLES
KILLS CLOVER MITES
AROUND HOMES**

Makes up to 48 Gallons of Spray

**CAUTION: KEEP OUT OF REACH OF CHILDREN
SEE BACK PANEL FOR ADDITIONAL CAUTIONS**

GRO-WELL KELTHANE gives quick and long residual action against most home and garden mites. For best results spray evenly and thoroughly, paying particular attention to underside of leaves. Use two teaspoonfuls of Kelthane for each gallon of spray material. A sprayer, such as the Gro-Well Shrub & Tree Sprayer, which attaches to the hose, may be used. This package is suitable for spraying small areas, small home gardens or one to two trees.

CLOVER MITES IN BUILDINGS: Spray wall, foundation and window sills and all plants and ground at base of infested building.

ORNAMENTALS: For control of Mites on Roses, Azaleas, Asters, Chrysanthemums, Ivy, Evergreens, Shade trees and certain others, apply when mites are present and repeat as necessary.

FRUITS: Apples, pears and crabapples to control European Red, Clover, Two Spotted, Schoene, McDaniel, Yellow (Carpini), Williamette, Pacific and Apple Rust Mites spray at petal-fall to second cover or whenever mites appear. For prevention, spray two successive applications at 10 to 14 day intervals. On peaches, cherries, plums and apricots for control of these same mites plus Peach Silver, and Plum Nursery Mites, apply at petal-fall or whenever mites appear. If a repeat application is necessary wait 30 days to avoid excessive residues on fruit. Do not apply within 7 days of harvest on apples, pears, crabapples, cherries and plums. On peaches and apricots, do not apply within 14 days of harvest.

VEGETABLES: On Beans, Cucumber, Melons, Winter and Summer Squash, Tomatoes, Eggplant and Peppers apply at first signs of Mite build-up and repeat as necessary. Do not apply within 7 days of harvest. Do not feed treated Vites, to dairy cows or meat animals being finished for slaughter.

CAUTION: Keep out of reach of and do not use on children and domestic animals. Wash thoroughly with soap and water after using and before eating or smoking. Harmful if swallowed. If gotten in eyes (flush profusely with water) or swallowed contact doctor immediately. Avoid contact with skin, eyes, clothing or inhalation of spray mist. Avoid contamination of feed or foodstuffs. Do not apply or allow to drift in areas occupied by unprotected persons or animals.

NOTICE: Follow directions carefully, as use, storage and handling of this material is beyond the control of the seller, the buyer assumes all risks if directions given herewith are not strictly adhered to.

ACTIVE INGREDIENT: 1,1-bis (Chlorophenyl) 2,2,2-Trichloroethanol 18.5%

INERT INGREDIENT: 81.5%

*Kelthane is a Registered Trade Mark of Rohm & Haas.
