NYFD Permit No. 405847

Read entire label before using.

DIRECTIONS FOR USE:

Shake well before using. Remove protective cap. Press button to release spray being sure to keep spray opening pointed away from you.

For both indoor and outdoor situations, it must be remembered that you are breaking a habit of the animal and areas must be re-sprayed every so often. However, the most effective control for a pet is the sharply spoken word backed up with disciplinary action. This product should be used in conjunction with training.

INDOORS:

To keep pets off furniture, rugs and other forbidden areas in your home spray the article lightly in a sweeping motion covering 1 foot of area per second so that the article or area is slightly moistened. However, it is suggested that you spray a small inconspicuous

sure to keep spray opening pointed away from you.

For both indoor and outdoor situations, it must be remembered that you are breaking a habit of the animal and areas must be re-sprayed every so often. However, the most effective control for a pet is the sharply spoken word backed up with disciplinary action. This product should be used in conjunction with training.

INDOORS:

To keep pets off furniture, rugs and other forbidden areas in your home spray the article lightly in a sweeping motion covering 1 foot of area per second so that the article or area is slightly moistened. However, it is suggested that you spray a small inconspicuous area before spraying extensive areas of rugs, fabrics or plastics, as this product may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the article to be protected. Repeat spraying daily or as necessary until undesirable habit is broken.

OUTDOORS:

To keep animals off lawn areas and out of flower beds spray along edges of these areas. To protect trees, shrubs, evergreens, etc., lightly spray the base of these plants daily, making sure that spray does not get on the foliage. Stray animals are frequently attracted to areas where urine or feces have been deposited. First remove any droppings, then spray the spot with this masking odor. You may also spray other areas frequented by animals such as posts, garbage cans, corner walls, etc. Re-spray areas every so often, depending on amount of rain and water which might wash off the *DOG-S-cat*, or until undesirable habits of your pet or stray animals are changed.

CAUTION: Keep out of reach of children. Do not apply this spray directly on the animals. Do not apply to food crops. Avoid contamination of food and foodstuffs. Avoid skin contact and inhalation of spray mist. In case of accidental contact and before eating or smoking, wash with soap and warm water. For eyes, get medical attention.

NOTE: We make no warranty of any kind, expressed or implied concerning the suitability or results of this product. Buyer, user or handler assumes all risks whether or not directions are followed.

ACTIVE INGREDIENTS:

Methyl nonyl ketone.....	1.9%
Related compounds.....	0.1%
