

GRO-WELL SYSTEMIC INSECTICIDE is absorbed through the root system to all parts of the plant by natural growth and sap flow to the leaves, where sucking insects feed. Protects plants such as ROSES, AZALEAS and other shrubs, flowers and tomatoes from damage caused by insects listed below as well as certain other insects.

Apply the granules uniformly and mix into the top soil around the base of the plant following directions given below. Water in well after application. Granules may also be applied and mixed into planting bed top soil before sowing seeds or setting out bulbs or transplanting. Continued insect control may be maintained by additional applications as needed after plants start to grow.

FLOWERS: To control Aphids, Leaf Hugs, Trips, Leaf Hoppers, Spider Mites and Whiteflies on ROSES, CARNATIONS, CHRYSANTHEMUM, PETER DUNE, GERANIUM, GASTROPHILA, DELPHINIUM and other flowers, follow these procedures: BEFORE PLANTING - Apply and work into the soil 16 ounces per 200 sq. ft. Sow seed or set in plants in normal manner and water thoroughly.

SINGLE BUSHY PLANTS: Apply 1 oz. granules per foot around base of plant and work into soil. Water thoroughly.

ROWING PLANTS AND BEDS: Apply 2 ounces to each 6 feet of row in a narrow band near base of plant. Work into soil and water thoroughly. Repeat application at 4-6 week intervals if insects reappear.

POTTED PLANTS: Apply granules to potting soil. Mix thoroughly into top soil and drain with water.

SHRUBS & ROSES: To control Aphids, Leaf Miners, Leaf Bug, Leaf Hopper, Spider Mites, Pine Tip Moth, Whitefly, Mites, Whitefly and other insects on ROSES, AZALEAS, RHODODENDRUM, EUCONYMUS, CAMELIAS, NIPPONIA, MEXICANA, BURNING BUSH and other shrubs, apply granules, according to size of shrub, given below. Spread granules evenly around the base of the shrub, working into the soil and water thoroughly. Repeat application as needed.

SIZE OF SHRUB	AMOUNT TO USE
Up to 6 feet high	1 oz. per ft. of height
6 to 12 feet high	2 ozs. per ft. of height*
Over 12 feet high	3 ozs. per ft. of height

TOMATOES: To control Aphids, Leaf Hoppers, Leaf Miners and Mites on Tomatoes.

Apply granules to soil around base of tomato plants in furrows with seed.

When the plants are in the soil, apply 16 ounces per plant in transplant hole. Mix granules with soil in the hole.

WARNING: Do not use in vegetable gardens with leafy vegetables. If accidentally spilled, sweep up and dispose of in a safe place. Do not use for any other purpose. Dispose of empty container. GRO-WELL SYSTEMIC INSECTICIDE is a granular material which may cause irritation if inhaled. May be fatal if swallowed or taken water. Avoid contact with eyes. May be absorbed through the skin. Avoid contact with skin, eyes and clothing. Wash hands thoroughly after use. Do not breathe dust. Do not ingest. Do not feed to livestock. Keep out of reach of children. Do not use in areas where people are smoking or drinking. Do not use in areas where people are eating. Do not use in areas where people are sleeping. Do not use in areas where people are resting. Do not use in areas where people are working. Do not use in areas where people are playing. Do not use in areas where people are exercising. Do not use in areas where people are swimming. Do not use in areas where people are sunbathing. Do not use in areas where people are sunning. Do not use in areas where people are sunbathing. Do not use in areas where people are sunning.

NOTE: For wide areas, use a broadcast spreader. Do not band apply this material. Always use the broadcast spreader. Do not use a broadcast spreader with a fan or blower. Do not use a broadcast spreader with a fan or blower.
