SUBJECT: Your Letter of August 20, 1995
EPA Registration No. 5535-74
No-Gro Weed & Grass Killer

Dear Mr. Freindlich:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable with the following provisions:

- 1. Revise the percentage of prometon in the Ingredients statement to read "2.15%". Correspondingly, the percentage for inert ingredients should be revised to read "96.68%".
2. Revise the second sentence of the Pesticide Disposal statement on the master label to read "Improper disposal of excess pesticides, spray mixture or rinsate is a violation of Federal Law may be contaminate groundwater."
3. Add the statement "avoid contact with eyes, skin and clothing" to the Precautionary statements on the consumer (1 gallon) label.

## No-GRO® WEED & GRASS KILLER

Keeps walks, driveways and patios clear of  
unwanted weeds and grass. Treats 600 Sq. Ft.

<b>ACTIVE INGREDIENTS:</b>	
*Prometon: 2,4-bis(isopropylamino) 4-methoxy-s-triazine .....	2.10%
**2-ethylhexyl ester of 2,4-dichlorophenoxyacetic Acid .....	1.17%
***INERT INGREDIENTS: .....	96.73%
*PRAMITOL® Trademark of CIBA-GEIGY CORP. U.S. Patent No. 2,908,420	TOTAL 100.00%
**Equivalent to 0.89% 2,4 isomer of 2,4-dichlorophenoxyacetic Acid. Not less than 0.052 pounds of 2,4-D per gallon. Isomer specific by AOAC Method 8001-5 ***This product contains aromatic petroleum solvents.

ACCEPTED  
with COMMENTS  
In EPA Letter Dated  
APR 03 1996

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.  
5535-74

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND  
DOMESTIC ANIMALS**

**THIS PRODUCT CONTAINS AROMATIC  
PETROLEUM SOLVENTS.**

**STATEMENT OF PRACTICAL TREATMENT-  
IF SWALLOWED:** Do not induce vomiting. Promptly  
drink a large quantity of milk, egg whites, gelatin solu-  
tion, or, if these are not available, drink large quanti-  
ties of water. Avoid alcohol. Do not give anything by  
mouth to an unconscious or convulsing person. Call a  
Physician. **IF IN EYES:** Flush with plenty of water and  
get medical attention. **IF ON SKIN:** Wash thoroughly  
with soap and water.

**CAUTION:**

**KEEP OUT OF REACH OF CHILDREN AND PETS.  
HARMFUL IF SWALLOWED:** Do not allow people  
(other than applicator) or pets on treatment area dur-  
ing application. Do not enter treatment areas until  
spray has dried or dust has settled. When using this  
product, wear long-sleeved shirt, long pants, socks,  
shoes and chemical-resistant gloves. After using this  
product, rinse gloves before removing, remove cloth-  
ing and laundry separately before reuse, and promptly  
and thoroughly wash hands and exposed skin with  
soap and water.

Remove saturated clothing as soon as possible and  
shower. Avoid breathing of spray mist. In case of con-  
tact wash thoroughly with soap and water, particularly  
before eating or smoking. Do not spray areas occu-  
pied by unprotected persons or animals. Avoid conta-  
mination of feed and foodstuffs, and water used for  
(Continued on other side panel)

**STORAGE:** Store in original container in a locked storage area, away from other pesticides, fertilizer, food and feed. Do not store near heat or open flame. If leaking or spilled, apply an absorbent, sweep up and discard in trash. Do not store diluted spray material. Make a new dilution for each use. Keep container tightly closed after opening.

**PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.

**CONTAINER DISPOSAL:** Do not reuse empty container. Wrap container in several layers of newspaper and discard in trash. Rinse container thoroughly before discarding in trash.

**GRO-WELL® NO-GRO® WEED & GRASS KILLER** should be used strictly in accordance with directions when killing weeds and grasses (most vegetation) on **DRIVEWAYS, WALKS, PATIOS, TENNIS COURTS, FENCE ROWS** or any similar non-crop area, or where you desire to kill most vegetation for a full season period. A second application may be necessary in seasons with a high rainfall. In addition, **NO-GRO** may also be used under **ASPHALT DRIVEWAYS** or **PARKING AREAS**, applying prior to laying of asphalt or cement. Apply this product only as specified on this label.

Best results will be obtained if the ground is wet before application and application is made in early Spring before weeds germinate. In any event, application should be made before weeds are four (4) inches tall for proper results. Thoroughly wet all parts of the plant and apply evenly. Spray slowly, allowing material to penetrate the soil so that run-off does not occur into areas where desirable plants may be located. Partial killing may be noticeable in several days, but final killing may take 2 to 3 weeks through penetration to the roots. The maximum number of broadcast applications per treatment site is two (2) per year.

For **DRIVEWAYS, WALKS, PATIOS, TENNIS COURTS** and **GRAVELED AREAS** mix 1 quart of **NO-GRO** in 2 gallons of water and apply to 150 square feet (15x10').

For areas of heavy growth, both weeds and grasses, such as along **FENCE ROWS** or where vegetation is more than 24 inches high, cut or mow down to at least 8 inches prior to application and mix **NO-GRO** at the rate of 1 quart in 3 to 6 gallons of water and apply to 150 square feet (15x10').

If deep-rooted **PERENNIAL WEEDS** such as Canada Thistle or Milkweed are present a second application 2 or 3 months later may be required.

**WARRANTY STATEMENT:**

Follow directions carefully, as use, storage and handling of this material is beyond the control of the seller. The buyer assumes all risks if directions given herewith are not strictly adhered to. Seller gives no other or further Warranty, expressed or implied as to the merchantability or any other aspect of product sold.

EPA Est. 572-NJ-1

domestic purposes. Do not store near seeds, fertilizers, insecticides, fungicides, heat or open flame. Do not use same spray equipment for other purposes. Read entire label before using. Use strictly in accordance with label precautions and directions. Apply this product only as specified on this label.

**ENVIRONMENTAL HAZARDS:** Most cases of ground water contamination involving phenoxy herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Placement of mixing equipment on an impervious pad to contain spills will help prevent groundwater contamination. This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and non-target plants. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Do not use on lawns or in areas containing desirable plants. Do not apply over root zone areas of desirable trees, shrubs, other ornamental plants or vegetable crops. Apply this material outside of the drip-line of these plants. Avoid spray drift (a coarse type sprayer is preferred) to susceptible plants. Avoid contamination of water used for domestic or irrigation purposes.

**PHYSICAL AND CHEMICAL HAZARDS:** Do not store near heat or open flame.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. (Continued on back panel)

**PHYSICAL AND CHEMICAL HAZARDS:** Do not store near heat or open flame.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**STORAGE:** Store in original container in a locked storage area, away from other pesticides, fertilizer, food and feed. Do not store near heat or open flame. If leaking or spilled, apply an absorbent, sweep up and discard in trash. Do not store diluted spray material. Make a new dilution for each use. Keep container tightly closed after opening. **PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticides, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance. **CONTAINER DISPOSAL:** Triple rinse, or equivalent and offer for recycling or reconditioning, or, puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

If container is over 1 gallon up to 5 gallon: persons engaged in opening of this product must also wear coveralls or a chemical-resistant apron. If container is over 5 gallon size: a mechanical system (probe and pump) must be used for transferring the contents of this container. If the contents of a non-refillable pesticide container are emptied, the probe must be rinsed before removal.

**GRO-WELL® NO-GRO® WEED & GRASS KILLER** should be used strictly in accordance with directions when killing weeds and grasses (most vegetation) on **DRIVEWAYS, WALKS, PATIOS, TENNIS COURTS, FENCE ROWS** or any similar non-crop area, or where you desire to kill most vegetation for a full season period. A second application may be necessary in seasons with a high rainfall. In addition, NO-GRO may also be used under **ASPHALT DRIVEWAYS** or **PARKING AREAS**, applying prior to the laying of asphalt or cement. Apply this product only as specified on this label.

Best results will be obtained if the ground is wet before application and application is made in early Spring before weeds germinate. In any event, application should be made before weeds are four (4) inches tall for proper results. Thoroughly wet all parts of the plant and apply evenly. Spray slowly, allowing material to penetrate the soil so that run-off does not occur into areas where desirable plants may be located. Partial killing may be noticeable in several days, but final killing may take 2 to 3 weeks through penetration to the roots. The maximum number of broadcast applications per treatment site is two (2) per year.

For **DRIVEWAYS, WALKS, PATIOS, TENNIS COURTS** and **GRAVELED AREAS** mix 1 quart of NO-GRO in 2 gallons of water and apply to 150 square feet (15'x10').

For areas of heavy growth, both weeds and grasses, such as along **FENCE ROWS** or where vegetation is more than 24 inches high, cut or mow down to at least 8 inches prior to application and mix NO-GRO at the rate of 1 quart in 3 to 6 gallons of water and apply to 150 square feet (15'x10').

If deep-rooted **PERENNIAL WEEDS** such as Canada Thistle or Milkweed are present a second application 2 or 3 months later may be required.
