SHAKE WELL BEFORE USING
READ ENTIRE LABEL BEFORE USING

GRO WELL[™] POISON IVY KILLER SPRAY will effectively control Poison Ivy. For best results apply when weeds are actively growing. Do not water within 24 hours after spraying. Effects begin to show after a few days and weeds gradually die. Up to 4 weeks may be required for complete kill. Repeat in 3-4 weeks if necessary.

DIRECTIONS

Shake can well before using. This product is designed to permit easy treatment of weeds without bending or stopping. Remove protective cap, aim at weed and depress valve, making certain valve opening is pointed away from you. Only a short burst is needed. Over spraying only wastes the spray.

WARNING: KEEP OUT OF REACH OF CHILDREN. HARMFUL OR FATAL IF SWALLOWED. HARMFUL IF INHALED. Avoid contact with skin, eyes, or clothing. In case of contact, flush with plenty of water; for eyes get medical attention. Avoid breathing of vapor or spray mist. If swallowed, do not induce vomiting, call physician immediately. Wash well after using and before eating or smoking.

Avoid spraying susceptible plants (flowers, shrubs, etc.). Bentgrass, Carpetgrass, and St. Augustine Grass may be injured if contacted. Do not apply within dripline of desirable plants. Avoid accidental drift or application to nearby garden plants, flowers, or shrubs. Do not store near seed, fertilizers, insecticides, or fungicides. Do not contaminate water used for irrigation or domestic purposes.

WARNING: Contents of can under pressure. Do not puncture. Do not use or store near heat or open flame. Exposures to temperatures above 130° F. may cause bursting. Never throw container into fire or incinerator.

NOTE: Follow directions carefully, as use, storage and handling of this material is beyond the control of the seller, the buyer assumes all risks if directions given herewith are not strictly adhered to.
