

HOW TO DETERMINE POOL CAPACITY

RECTANGULAR POOLS . . . Length times width times average depth in feet times 7.5 equals total number of gallons in pool.

ROUND OR OVAL POOLS . . . Average diameter times average diameter times average depth in feet times 5.9 equals gallons of water in pool

(One cubic foot of water equals 7.5 gallons)

ALBAN CONDITIONS OF SALE

The seller guarantees the material sold to be true to the label. Further than that, it makes no representation or warranty, and it shall not be held responsible for any injury to crop, soil, person or property, resulting from the use or handling of said material, whether used in accordance with directions or not. The buyer and/or user accept this material subject to the above conditions of sale.

SWIMMING POOL ALGAE KILLER

For the Control of Algae in Swimming Pools

ACTIVE INGREDIENTS:

N-alkyl (C₁₄ 50%, C₁₂ 40%, C₁₆ 10%) Dimethyl

Benzyl Ammonium Chloride 10.0%

INERT INGREDIENTS 90.0%

— WARNING —
KEEP OUT OF REACH
OF CHILDREN

WARNING: Harmful if swallowed, causes eye irritation. Do not get in eyes. In case of contact, flush with water for at least 15 min. If irritation persists, get medical attention.
DO NOT MIX WITH SOAP OR ANIONIC DETERGENTS

MANUFACTURED BY: HUBBARD HALL CHEMICAL COMPANY
GENERAL OFFICES, WATERBURY, CONNECTICUT

1 U.S. GALLON
USDA REG. NO. 5568-181

DIRECTIONS FOR POOLS

INITIAL APPLICATION: To first destroy or kill algae growth in the fill water use the following concentrations of ALBAN. 1 Pint to 2,500 gallons of water, 1 Quart to 5,000 gallons.

CONTINUING APPLICATION: To maintain pools from subsequent algae growth use the following concentrations of ALBAN. ALBAN should be added at 3-5 day intervals in hot weather when pool is in heavy use. During cool weather or when pool is not in use add ALBAN at weekly intervals. 1 ounce to 390 gallons of water, 1 pint to 6,250 gallons, 1 quart to 12,500 gallons.

ALBAN acts as a algaecide (not as a germicide) and imparts no odor or taste to pool water. It is compatible with pool treating chemicals such as chlorine and alkalizers.
