For Use On: Driveways, Patios, Walks, Fence Rows, Firelands, Playgrounds,  
Parking lots, Graveled areas where total weed control is desirable.

READY TO USE (A non-arsenical liquid weed killer)

NET CONTENTS ONE QUART LIQUID (Treats 120 sq.ft.)

**ACTIVE INGREDIENTS:**

2x	2-methoxy-4,6-bis (isopropylamino)-s-triazine . . . . .	By wt.	1.6%
	Petroleum Hydrocarbons . . . . .		90.6%

<b>INERT INGREDIENTS:</b> . . . . .	7.8%
	<hr/> 100.0%

U.S. Pat. 2,909,420

**CAUTION: KEEP OUT OF REACH OF CHILDREN.** See other cautions on back panel.

**Back Panel:**

Read entire label. Use strictly in accordance with label cautions, warnings and directions.

**CAUTION:** Avoid contact with skin. In case of skin contact, wash with soap and water. Avoid breathing spray mist. Avoid contamination of feed and foodstuffs. Do not contaminate any body of water nor apply to any area not specified on the label. Do not use or store near heat or open flame. . . . . Do not use this product on lawns. Do not use close to desirable flower beds. Do not apply over the roots of valuable trees, shrubs or woody ornamental plants. Apply this material outside the drip line of trees and shrubs.

**CLEANING SPRAYERS AND SPRINKLING CANS:** Wash immediately and thoroughly with a household detergent and water. Make a second rinse of clean water to insure complete removal of FARMINGDALE TOTAL WEED & GRASS KILLER from equipment that is to be used for applying other pesticides.

**NOTICE:** Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

**READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS.**

**STATEMENT OF LIABILITY:** Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

**CAUTION:** Avoid contact with skin. In case of skin contact, wash with soap and water. Avoid breathing spray mist. Avoid contamination of feed and foodstuffs. Do not contaminate any body of water nor apply to any area not specified on the label. Do not use or store near heat or open flame.

**GENERAL INFORMATION:** FARMINGDALE TOTAL WEED & GRASS KILLER is recommended for use where it is desirable to eliminate and to prevent regrowth of all vegetation throughout the entire growing season. This product works two ways:

1. Kills all young weeds and grasses on contact.
2. Deposits a chemical residue on the soil which prevents annual weeds and grass seeds from germinating during the entire growing season.

**APPLICATION:** Use undiluted or mix with water and apply with a sprayer or sprinkling can. For best results, apply early spring before weeds germinate. If weeds have germinated apply before weeds are 2 to 4 inches tall and growing actively. Contact activity will be apparent on weeds in a few days but final kill by root penetration may take 2 to 3 weeks. During seasons when rainfall is unusually high, a second application may be necessary for residual action.

**RATES:** For Annual weed and grass control on Walks, Driveways, Patios, and Tennis Courts:

**SPRAYER APPLICATION:** Spray undiluted 1 quart per 120 sq.ft. (10x12) or 1 gallon per 360 sq.ft. (10x30) of surface to be treated. Spray when air is calm. Use lowest possible pressure and largest nozzle opening to produce large droplets to minimize spray drift.

**SPRINKLING or WATER CAN APPLICATION:** To insure even coverage, dilute one quart of FARMINGDALE TOTAL WEED & GRASS KILLER to one gallon or more of water and apply to 120 sq.ft. or one gallon of total to four or more gallons of water to 300 sq.ft.

For areas such as Firelanes, Fence Rows and for areas where heavy grass and weed growth is present, the use of additional water for thorough wetting of all foliage will insure best results. Where vegetation is more than 6 inches high, mow or cut before applying the material. A second application in 2 to 3 months may be necessary to control deep rooted perennial weeds such as Milkweed and Canada Thistle.

**SPRINKLING:** Use undiluted for treating vegetation as soon as noticed on Walks, Driveways and other areas. Apply as a coarse wetting spray.

**CAUTION:** Do not use this product on lawns. Do not use close to desirable flower beds. Do not apply over the roots of valuable trees, shrubs or woody ornamental plants. Apply this material outside the drip line of trees and shrubs.
