Engineering a better environment

through advanced chemical research

FOR INDUSTRIAL, INSTITUTIONAL, OR PROFESSIONAL USE ONLY

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

STORAGE & DISPOSAL: Keep container sealed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Do not reuse empty container. Triple rinse container and dispose of container in an incinerator or in an approved landfill, or bury in a safe place. Rinsate that cannot be used or reprocessed should be disposed of in a landfill approved for hazardous waste or buried in a safe place away from water supplies. Open during prohibited.

POOL-CIDE

ACTIVE INGREDIENT

[polyoxyethylene dimethylamine ethylene-dimethylamine dichloride]

INERT INGREDIENT 41.00

This product contains 0.75 lb. of active ingredient per gallon and weighs 4.6 lb per gallon.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

KEEP OUT OF REACH OF CHILDREN

CAUTION

SEE ADDITIONAL PRECAUTIONS AND FIRST AID ON SIDE LABEL

This product is warranted to be of uniform quality within manufacturing tolerances. Since no control is exercised over its use, no warranty, expressed or implied, is made as to the effects of such use. The obligation hereunder shall be limited to refunding the purchase price of that portion of the material proven to be defective.

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

POOL-CIDE is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using POOL-CIDE.

For pools having just visible algae growth add an initial dose of 11 to 17 fluid ounces of POOL-CIDE per 1,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add initially 6 to 11 fluid ounces of POOL-CIDE per 1,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 2 to 4 fluid ounces of POOL-CIDE per 1,000 gallons of water should be made every 3 to 7 days after the initial treatment. POOL-CIDE is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. POOL-CIDE can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix POOL-CIDE with concentrated dry or liquid chlorine products.
