

Engineering a better environment

through advanced chemical research

FOR INDUSTRIAL, INSTITUTIONAL, OR PROFESSIONAL USE ONLY

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS &
DOMESTIC ANIMALS**

CAUTION:

Harmful if swallowed. Avoid contact with eyes and skin. Avoid inhalation of spray mist. Avoid contamination of feed and food.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Keep out of lakes, ponds, streams, tidal marshes, and estuaries. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not contaminate water used for irrigation or domestic purposes. Do not apply when weather conditions favor drift from areas treated.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL

Pesticide, spray mixture or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State or Local procedures under the Resource Conservation and Recovery Act.

CONTAINER DISPOSAL

Do not reuse container. Wrap container...

WEEDOCIDE

Residual Action Vegetation Killer

**FOR NON-SELECTIVE WEED CONTROL
ON NON-CROP-LAND AREAS SUCH AS
PARKING LOTS, FENCE ROWS, RAILROAD
SIDINGS, STORAGE YARDS, AROUND
BUILDINGS OR INDUSTRIAL SITES.**

ACTIVE INGREDIENTS:

Prometon 2, 4-bis (isopropylamino)	
6-methoxy-s-triazine	3.77%
Petroleum Distillates	74.06%

INERT INGREDIENTS 22.17

TOTAL 100.00%

NET CONTENTS

CAUTION:

**KEEP OUT OF THE REACH OF CHILDREN.
DO NOT TAKE INTERNALLY.**

See side panel for additional precautionary statements

EPA Est. No. _____

**HIGH CONCENTRATE
WATER SOLUBLE**

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Uniformly spray one gallon of product mixed in 10 gals. of water over 1000 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or soon after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1½ gals. of product in 10 gals. of water per 1000 sq. ft. For control of hard-to-kill perennial weeds and grasses such as Johnson Grass, Bindweed and Wild Carrot, use 3 to 4½ gals. per 1000 sq. ft. Although this product has considerable activity through foliar contact, much of its action is through the roots and therefore, adequate rainfall or watering to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees, or woody ornamental plants. Only apply herbicide outside of the drip line of trees. Avoid drift to desirable plants. Do not use for other purposes.

This product is warranted to be of uniform quality within manufacturing tolerances. Since no control is exercised over its use, no warranty, expressed or implied, is made as to the effects of such use. The obligation hereunder shall be limited to refunding the purchase price of that portion of the material proven to be defective.
