

FOAM ON . . . WIPE OFF BOWLBETA CLEANS AND DISINFECTS

BOWLBETA strips away floor oils and waxes, body oils and sweat, dust, dirt, smoke, grease, rubber bumper marks, chalk and resin. BOWLBETA is especially effective in preventing dirt and oil build-up in your balls' "track". BOWLBETA will not scratch or pit bowling balls. Leaves no wax, oily film or other foreign matter. BOWLBETA also kills infectious staph, strep, influenza virus and athlete's foot fungus on environmental surfaces. Removes unpleasant odors.

DIRECTIONS FOR USE:

- Use flat surface
- Place ball on cloth
- Shake can well
- Spray foam directly into finger holes
- Then spray 5 to 8 inches from surface. Use sparingly. A little does a lot
- Allow foam to work or penetrate
- Wipe off with the cloth, damp sponge or absorbent paper towel

BOWLBETA returns original smooth surface of plastic balls; nothing else needed. For hard rubber bowling balls, first clean with Bowlbeta . . . then for desired shine, use the ball cleaning or polishing machine available at most lanes.

OTHER RECOMMENDED USES:

BOWLBETA's power foam cleans bowling balls (plastic or hard rubber), billiard balls, bowling bags, bowling shoes, shoe bags, lockers, plastic scoring sheets, overhead projector lenses, scoring tables, return racks, ball turntable, pool cue sticks and racks, ashtrays, glass holders, counters . . . any hard surface where cleanliness and sanitation are important to bowlers and billiard players.

ACTIVE INGREDIENTS:

o-Phenylphenol	0.100%
4-Chloro-2-Cyclopentylphenol	0.080
Lauric Diethanolamide	0.200
Triethanolamine Dodecylbenzenesulfonate	0.300

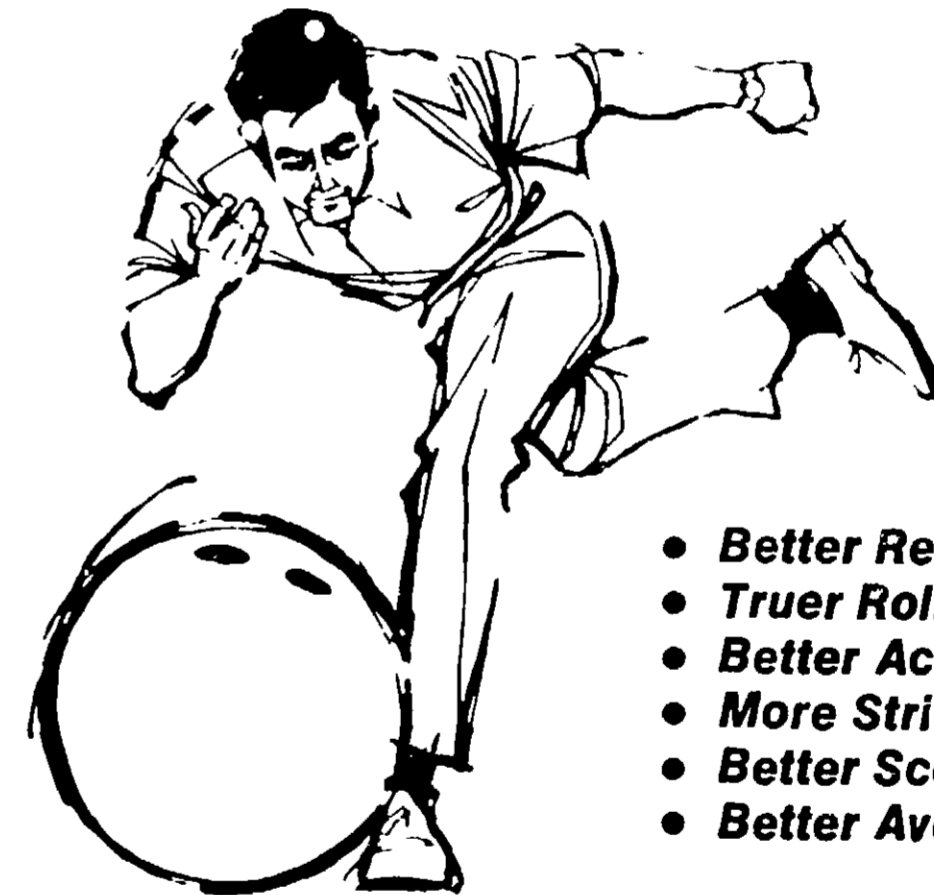

INERT INGREDIENTS:*

..... 99.320%
*(includes surfactants and cleaners)

FOAM ON ... WIPE OFF
