FLYING INSECT KILLER

Read entire Label. Use strictly in accordance with Label Cautions, Warnings and Directions.

DIRECTIONS

SHAKE BEFORE USING. Turn valve on, pull away from face and push button, holding container as upright as possible.

FLIES, MOSQUITOES, GNATS, MILLER MOTHS, FLYING MOTHS, HORNETS, WASPS - As a room spray to control these insects - Shut doors and windows, press valve and direct spray to all parts of room, especially the upper corners and other areas, filling the room with mist. Keep about 3 feet from walls, fabric, furniture. Also spray areas where pests may tend to congregate, such as along walls, baseboards, cracks in woodwork, and other areas. Keep room closed for at least 15 minutes after treatment. Air room before occupancy. Repeat as necessary. DO NOT REMAIN IN TREATED AREA. Air room before occupancy.

ANTS, SILVERFISH, ROACHES (INCLUDING RESISTANT STRAINS), SCORPIONS, FLEAS, EARWIGS - Spray directly on insects wherever possible and in areas where insects may be found, such as under sinks, drainboards, cabinets, cracks and crevices on baseboards, pipes, around doorsills, window frames, screens, garbage cans, refuse areas, in attics, behind shelving, bookcases, storage areas, floor coverings and other areas where pests may be found. Repeat as necessary. Make thorough and repeated treatment of floors, floor coverings, baseboards and animal quarters not more than every 2 or 3 weeks.

LEEBERS - Spray to contact insects where possible, also spray bed frames, springs, mattress tufts (spray lightly), screens, along baseboards, carpet edges, cracks and hiding places about rooms.

CARPET BEETLES - Spray to contact insects and also spray top and bottom of beds. Repeat as necessary.

WARNING: To avoid contamination of food and foodstuffs, do not spray directly on them or on their surfaces. When used in food processing plants, use only when plant is not in operation. Remove or cover food during treatment. Cover all working surfaces of the facility before reuse.

Precaution: Contents under pressure. Do not use near fire, sparks, or flames. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

- ACTIVE INGREDIENTS
- Pyrethrins 0.250%
 - Piperonyl butoxide, technical 0.625%
 - Noctyl bicycloheptene dicarboximide 0.625%
 - Petroleum Distillate 8.500%
- INERT INGREDIENTS: 90.000%
- *Equivalent to 500 (butylcarbityl) (6-propylpiperonyl) ether and 125 other related compounds.
