ACTIVE INGREDIENTS	
Methyl nonyl ketone	1.9%
Related compounds	0.1%
INERT INGREDIENTS	
	98.0%
	<u>100.0%</u>

A training aid for your own pet. Will repel dogs and cats for 12 to 24 hours when applied daily.

CAUTION: -

NET WEIGHT, 7 oz.
DOES NOT CONTAIN
CHLOROFLUOROCARBONS

Directions for Use: Shake well before use.
GENERAL: For best results, use this product for the most effective control for a pet in the home. Always back up with discipline and training. The repellent product should be used in conjunction with training. Do not apply directly to furniture, drapes or to ornamental soft bed and plants.

Indoors: To break your pet of undesirable habits such as sleeping on furniture, rugs and other forbidden areas of your home. Spray the article or furniture lightly with this product so that the area or object is slightly moistened. Before spraying extensive areas of fabric, drapes or plastics, test the effect of this product by first treating a small, inconspicuous area. This product may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected. Repeat daily, or as necessary, until undesirable habits are broken.

Outdoors: To reduce soiling of flowers, lawns, trees and shrubs by urine and droppings, lightly spray the area with this product. Reapply as often as necessary until the pet or stray animal changes its undesirable habits. Note: this product is not likely to break the established urination pattern of a dog unless this is used as a training aid.

CAUTION: Wash hands with soap and water after spraying. Avoid contact with skin. Harmful if swallowed. Do not apply to food or feed. Avoid contamination of feed and foodstuffs.

Flammable: Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.
