Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Do not apply over uncovered milk or food products. Any exposed utensils or food handling surfaces should be thoroughly cleaned before use. Do not use in areas where fish or reptiles may be exposed to the spray.

Remove pets, birds and cover fish aquariums before spraying.

~~WARNING:~~ KEEP OUT OF REACH OF CHILDREN

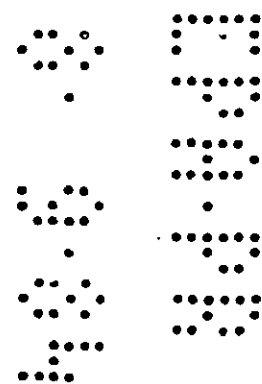

CHEMICALS OR PHYSICAL HAZARDS

Flammable - Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Wrap container and put in trash and put in collection.

DIRECTIONS FOR USE: USE INDOORS ONLY

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling.

Hold container upright, nozzle away from you and press actuator button spraying as directed.

FLYING INSECTS: 1 Flies, mosquitos, small flying moths, wasps, gnats. Calculate cubic feet of space to be treated. 2 Close all doors and windows. 3 Spray in a sweeping motion on all parts of the room. Apply for 2-3 seconds per 1000 cubic feet of space. 4 Do not remain in treated areas. 5 Vacate premises for at least 15 minutes after spraying. 6 Ventilate the area after treatment is completed and before re-entering. 7 Remove pets, birds and cover fish aquariums before spraying. 8 Foods should be removed or covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when facility is not in operation. Sweep up and destroy fallen insects. Repeat treatment as necessary.

CRAWLING INSECTS: Roaches, ants, spider's, silverfish. Calculate square feet of floor area to be treated. Open all cabinets, storage areas, closets. Spray directly on insects or in cracks and crevices, where insects hide.

FOR ROACHES: For best results, spray directly on roaches and thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces, under sinks, behind stoves and refrigerators, food storage areas, and wherever these pests are suspected of hiding. Also spray around door and window frames. Repeat as necessary.

FOR SPIDERS AND SILVERFISH: For control of these insects, frequent and repeated spraying of baseboards, windows, door frames, bookcases, and storage areas should be made. For adequate control, spray directly on insects.

FOR CRICKETS: Spray thoroughly and frequently behind stoves, refrigerators, under cabinets, in food storage areas, and especially in closets, basements, and other damp areas. For best results, spray directly on insects.

FOR ANTS: Spray ant trails, nests and points of entry.

For initial clean-up apply for 10-15 seconds per 1000 square feet of floor area. Then periodically spray as a space aerosol 3-5 seconds per 100 cubic feet of space.
