

HUB STATES
DURSBAN 4E
EMULSIFIABLE INSECTICIDE

For use by pest control operators only to control resistant and non-resistant cockroaches.

Active Ingredients:
0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate**.....40.8%
Inert Ingredients***.....59.2%

** Also known under the trademark DURSBAN
*** Contains Aromatic Hydrocarbons

Contains 4 pounds, 0-0-diethyl 0-3,5,6 trichlor-2 pyridyl phosphorothioate per gallon.

*DURSBAN - Registered Trademark of the DOW CHEMICAL COMPANY

CAUTION! Keep Out Of Reach Of Children!
See side panel for additional cautions.

EPA Registration No. 5602-58 EPA EST. No. 5602-SC-01

KEEP OUT OF REACH OF CHILDREN
WARNING
STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED - Do not induce vomiting. Contains aromatic petroleum solvent. Call a physician immediately.
IF ON SKIN - In case of contact, remove contaminated clothing and immediately wash skin with soap and water.
IF IN EYES - Flush eyes with plenty of water for 15 minutes. Call a physician.
IF INHALED - Remove to fresh air if symptoms of cholinesterase inhibition appear and get medical attention immediately.
NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. If exposed, plasma and red blood cell cholinesterase tests may indicate significance of exposure (baseline data are useful) Atropine, only by injection, is the preferable antidote. Oximes, such as 2-PAM/propapam, may be therapeutic if used early; however, use only in conjunction with atropine. In case of severe acute poisoning, use antidote immediately after establishing an open airway and respiration.

MIXING AND USING DIRECTIONS

It's a violation of federal law to use this product in a manner inconsistent with its labeling.

WARNING

AVISO:

PRECAUCION AL USUARIO:

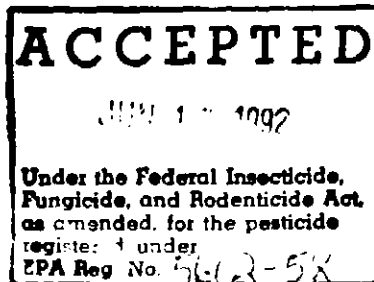

Si usted no lee ingles, no use este producto hasta que la etiqueta le sea explicada ampliamente.

DURSBAN 4E insecticide mixes readily with water or oil. Dilute amount of DURSBAN 4E in water or in a base oil such as deodorized kerosene or No. 2 fuel oil. Mix according to the following table to obtain a concentration of 0.25% or 0.50% DURSBAN insecticide. Use the higher concentration (0.50%) to quickly reduce heavy cockroach infestation and the lower concentration (0.25%) on light infestations.

Amount of Spray Mixture Desired	Amount of DURSBAN 4E to Use	
	For 0.25% Spray	For 0.50% Sp
1 gallon	4 teaspoonfuls	8 teaspoonfuls
3 gallons	4 tablespoonfuls	8 tablespoons
5 gallons	3 fluid ounces	6 fluid ounces
10 gallons	6 fluid ounces	12 fluid ounces

APPLICATION WITHIN NON FOOD AREAS. Use as a spot treatment by spraying or with a paint brush, to areas where cockroaches normally are found. These areas include dark corners of rooms at the base of walls, in cracks in the wall, behind baseboards beneath sinks refrigerators, stoves, and cabinets and around doors. Apply in a manner to avoid spray or mist contacting food, feed, water supplies. Dishes and food handling utensils should be thoroughly washed in soap and water if they have been contaminated by the use of this product. Repeat treatment as needed. NOTE: A period of time after treatment is normally required for maximum effect on cockroaches.
APPLICATION WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS. Crack and crevice treatment only -- Apply a small amount of material into cracks and crevices such as expansion joints between equipment, the floor, wall voids, motor housing, junction boxes or switch boxes or hollow equipment legs where cockroaches hide. Care should be taken in depositing the product to avoid exposed surfaces of introducing the product into the air. Avoid contamination of food or food processing surfaces.

APPLICATION OF THIS PRODUCT IN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.
