E.P.A. Reg. No. 1187-35 VIRGINIA CHEMICALS INC., PORTSMOUTH, VA. 23703

WHERE TO APPLY

Use only in non-residential food handling areas of food plants, canneries, bekeries, restaurants, cafeterias, diners, grocery stores, food markets, milk handling areas of dairies and milking parlors.

HOW TO APPLY

Files, masquiless, gnets, waspe, and small flying moths: Ascertain the cubic feet of space to be treated. Close doors and windows. Pointing nozzle upward, direct the serosol mist to all parts of the room, especially around window frames and other light sources which attract these insects. Keep nozzle in continuous motion at least 36 inches from fabrics. Apply for two seconds per 1000 cubic feet of space. Keep area closed for fifteen minutes after each treatment. Do not remain in treated area, ventilate the area after treatment is completed. Sweep up and destroy fallen insects. Repeat freatment as necessary.

STORED PRODUCT INSECTS (accessible stages)

Flying Mediterranean flour moths, Indian meal (chocolate) moths, angumols grain moths: Close doors and windows. Direct serosol mist to all parts of the room, especially into dark enclosures and ground stored product containers where adult moths may be resting. Use a minimum treatment of six to eight seconds per 1000 cubic feet of space. Keep area closed for 30 minutes after each treatment. Repeat treatment weekly or as flying moths appear. Infested stored food products should be fumigated or treated with an approved product.

Use in food processing areas only when not in operation. All food processing surfaces should be covered or thoroughly cleaned before using. Food items should be removed or protected during the treatment.

PHYSICAL OR CHEMICAL HAZARDS

This non-refffable can contains a liquid under pressure. Do not puncture. Do not the or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

Do not sprity directly or food, utensits, pleatic or asphelt tile. Persons hypersensitive to ingredients on the label may suffer irritation and should avoid exposure to the serosol mist.

Do not remain in tree of areas and ventilets the area after treatment is completed. Remove pets, birds and cover fish equariums before spraying.
