

27 MAY 1992

Ms. Ruth Dodds
Hub States Corporation
8455 Keystone Crossing, Suite 150
Indianapolis, in 46240-4303

Dear Ms. Dodds:

Subject: Revised Labeling in Response to PR Notice 91-7
Reg. No. 5602-167 Pro-Cide
Reg. No. 5602-169 V-26
Reg. No. 5602-170 Pro-Cide III
Submissions dated April 20, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

In accordance with the Resmethrin Registration Standard, modify the label declaration for resmethrin in Reg. No. 5602-170 to read: "Resmethrin".

For Reg. Nos. 5602-167, 5602-169, and 5602-170, delete the active ingredient label declarations of "petroleum hydrocarbon oil base", "aromatic petroleum hydrocarbons", and "petroleum distillates" from the respective labels and add the corresponding percentages to the inert ingredients. The phrase --"Contains petroleum distillates"-- should then be added as a substatement to the ingredient statement. If you choose not to include these petroleum derivatives as inert ingredients, you are responsible for any data required to support their reregistration as active ingredients.

Delete the term "related compounds" from the label ingredient declaration for Reg. Nos. 5602-169 and 5602-170. Unless otherwise substantiated, these compounds should be considered inert. If the "related compounds" are determined to be active, they should be incorporated in the declaration for the active ingredient and not distinguished as "related compounds" or "other isomers".

Please be advised that several ingredients in your products have been identified as Class I or Class II substances under Title VI of the Clean Air Act, 1990 Amendments. Based upon this Act, Congress has implemented provisions to protect the stratospheric ozone layer from deterioration. Please review PR Notice 92-3 for further guidance. Any questions concerning this issue are welcomed by the Agency.

Sincerely,

Richard F. Mountfort
Product Manager (10)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

**PRECAUTIONARY STATEMENT
HAZARD TO HUMANS AND
DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. Facilities and equipment in federally inspected meat and poultry plants must be washed with an effective cleaning compound followed by a potable water rinse after spraying. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use.

Remove pets, birds and cover fish aquariums before spraying.

**STATEMENT OF PRACTICAL
TREATMENT**

If in eyes: Flush with plenty of water. Get medical attention if irritation persists.

If on skin or clothing: Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.

If swallowed: Call a physician or Poison Control Center. Do not induce vomiting because of aspiration hazard.

**PHYSICAL OR CHEMICAL
HAZARDS**

Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

PRO-CIDE III

Kills: Mosquitoes, Flies, Gnats, Wasps

ACTIVE INGREDIENTS:

* + (5-Benzyl-3-furyl) methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate	0.500% w/w
Related compounds	0.068%
Aromatic petroleum hydrocarbons ..	0.662%
Petroleum distillate	18.750%
INERT INGREDIENTS:	80.020%
	100.000%

* Cis/trans isomers ratio: max. 30% (±) cis and min. 70% (±) trans.
+ U.S. Patent No. 3,465,007

**CAUTION
SEE SIDE PANEL FOR CAUTIONS
KEEP OUT OF REACH OF CHILDREN**

NET WT. 1 LB. 5 OZ.

STORAGE AND DISPOSAL:
Storage: Do not use or store near open flame.
Disposal: Replace cap and discard container in trash. Do not incinerate or puncture.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE IN NON-RESIDENTIAL HANDLING AREAS OF: bakeries, plants, restaurants, cafeterias, stores, food handling establishments and in milk handling areas of (milk, cheese, and ice cream) milking parlors and milk storage.
Remove protective cap. Hold dispenser upright, point valve in direction and press dispenser to spray.

MOSQUITOES, FLIES, GNATS: Spray all doors and windows. Direct spray to all parts of the room. Fill the nozzle with mist, then leave the treated area room closed for at least 15-30 minutes. Ventilate the room when treatment is completed.

WASPS: Application should be made in late evening when insects are active. Spray liberally into hiding and nesting places, contacting as many insects as possible. Repeat as necessary.
