U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Registration Division (17505C)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg. Number:  
5602-199

Date of Issuance:  
APR 22 1998

**NOTICE OF PESTICIDE:**

- Registration
- Reregistration

Term of Issuance: Conditional

Name of Pesticide Product:  
A-50 20% DDVP Insecticide

(under FIFRA, as amended)

**Name and Address of Registrant (include ZIP Code):**

Hub States Corporation  
8455 Keystone Crossing, Suite 150  
Indianapolis, IN 46240-4303

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Submit a complete acute toxicity battery (six studies) within 18 months from the date of this notice. You agreed to this condition in your letter to the Agency dated December 17, 1997. We will inform if studies may be bridged between your other products, EPA Reg. Numbers 5602-198 and 5602-200. Also we note product chemistry data for this formulation has not been submitted. Please submit this information within six months from the date of the label
3. Make the following label changes:
  - a. Move the section "Nonfood/feed processing and manufacturing.....or bottling)" after the section describing "food/feed processing establishments."

Signature of Approving Official:

Date:

- b. On the front panel revise the claim as follows: "For Warehouse Insect Control containing non-perishable, packaged or bagged raw or processed food/feed commodities or bulk raw or processed food/feed commodities and in the Nonfood/feed areas of food/feed handling establishments."
- c. Add the following to the Directions For Use: "Not for use in Federally Inspected Meat and Poultry Plants."
- d. Add to your precautionary statements, the identical Required Protective Clothing statement found on Amvac's Technical Labeling. Replace what is currently on your labeling.
- e. Under Environmental Hazards revise to statement as follows, "Do not contaminate water by disposal of equipment washwaters."
- f. Under the heading Storage and Disposal add, "Do not contaminate water, food or feed by storage or disposal."
- g. Revise the statement to read "When using warehouses, plants in food/feed processing and manufacturing, handling and storage areas: Apply....."
- h. Delete "Institutional" from front panel statement since there are no institutional sites listed on label.
- i. The Note: Use is Prohibited In and airing out and reentry paragraphs should follow the peanut warehouse directions since these precautions pertain to all uses on the label.
- j. Following the end of the paragraph identified in comment (h) above add: "Note: Food warehouses, food processing, manufacturing and service plants must contain only non-perishable packaged or bagged, raw or processed food commodities. Do not fog areas containing perishable foods as identified above."
- k. Delete the warning regarding Methyl Chloroform.
- k. Add the phrase, "EPA Registration No. 5602-199."

4. Submit two copies of the revised final printed label for the record. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. If possible, vomiting should be induced under medical supervision. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

If inhaled: Remove victim to fresh air. Apply respiration if indicated.

If on skin: Remove contaminated clothing and wash affected areas with soap and water.

If in eyes: Flush eyes with plenty of water. Call physician immediately.

NOTE TO PHYSICIAN AND ANTIDOTE STATEMENTS

Solvent presents aspiration hazard. Gastric lavage is indicated if material was taken internally.

POISONING SYMPTOMS: Symptoms include weakness, headaches, tightness in chest, blurred vision, non-reactive pin-point pupils, salivation, sweating, nausea, vomiting, diarrhea and abdominal cramps.

TREATMENT: Atropine is the specific therapeutic antagonist of choice against parasympathetic nervous stimulation. If there are signs of parasympathetic stimulation, atropine sulfate should be injected at 10 minute intervals, in doses of 1 to 2 milligrams until complete atropinization has occurred. 1-PAM is also antidotal and may be administered with Atropine. Morphine is contra-indicated. Clear chest by postural drainage.

Repeated exposure to cholinesterase inhibitors may without warning, cause prolonged susceptibility to very small doses of any cholinesterase inhibitor.

Allow no further exposure until cholinesterase regeneration has been allowed, as determined by blood test.

PRECAUTIONARY  
STATEMENTS  
HAZARDS TO HUMANS &  
DOMESTIC ANIMALS  
DANGER

Fatal if swallowed, inhaled or absorbed through the skin or eyes. Do not get in eyes, on skin, or clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Remove contaminated clothing and wash before reuse. Do not breathe vapor or spray mist. Rapidly absorbed through skin. Wear natural rubber gloves, waterproof protective clothing and goggles when handling. Wear a pesticide respirator jointly approved by the Mine Safety and Health Administration and by the National Institute for Occupational Safety and Health under the provision of 30 CFR Part II.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water or wetlands. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130 F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Return empty cylinder for reuse.

**WARNING:** Contains methyl chloroform a substance which harms public health and environment by destroying ozone in the upper atmosphere.

IMPORTANT- First read the precautions on Right Panel of label.

5060

**GENERAL INFORMATION:** Hub States A-50 is an aerosol designed for use only with Hub States Corporation automatic application device. Applied as an aerosol in warehouse or plant areas. It kills by contact and the insecticide releases a vapor which continues to kill for three to four hours.

A-50 is a specially formulated insecticide designed for use in the control of exposed stages of stored products insects infesting warehouses containing non-perishable, packaged or bagged raw or processed food/feed commodities.

The term "non-perishable" means any raw or processed food/feed not subject to rapid decay or deterioration that would render it unfit for consumption. Raw commodities would include: Animal feed, cocoa beans, dried beans, grain crops, peanuts, soybeans and nut crops. Raw commodities do not include: eggs, milk, meat, poultry, fish, fresh fruits and vegetables. Processed food/feed would include: flour, sugar, cereals, packaged goods and crackers. Processed food/feed do not include: hermetically sealed food/feed or manufactured dairy products and other processed food/feed requiring freezing or refrigeration.

**ENTOMOLOGICAL RECOMMENDATIONS:** Hub States A-50 can be used for control and prevention of migration of exposed stages of stored product insects, granary weevils, rice weevils, yellow meal worm, mediterranean flour moth, angoumois grain moth, almond moth, lesser grain borer, tobacco moth, cock-roaches, cadelle, ants, spiders, silverfish, fleas, earwigs, waterbugs, confused flour beetles, saw-toothed grain-beetles, cigarette beetles, Indian-mealmoths, and cocoa bean moths.

For use in warehouses, silos, bulk bins and food/feed processing, food/feed manufacturing, handling and storage plants containing non-perishable, packaged or bagged raw or processed food/feed commodities or bulk raw or processed food/feed commodities and non-food/feed areas of processing/manufacturing plants, at 2.0 grams a.i./1000 cubic feet maximum.

Non-food/feed processing and manufacturing plant use areas include garbage rooms, lavatories, floor drains (to sewers entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

When using in food/feed processing, food/feed manufacturing, handling and storage areas: Apply only during times when plant is not in operation and no food/feed products are exposed. If bulk, unpackaged food/feed are exposed, remove or cover before treatment begins. All food/feed processing surfaces should be covered during treatment or thoroughly cleaned with a USDA approved cleaner and rinsed with potable water before processing is resumed.

**NOTE: USE IS PROHIBITED IN:**

Food/feed manufacturing establishments: bottling plants (including wineries, breweries, soft drinks), frozen food/feed (including pizza plants and ice cream plants) excluding non-food/feed manufacturing areas.

Food/feed processing establishments: meat, poultry and seafood slaughtering and/or packing plants (including edible fats and oils), frozen food/feed plants (including fruit and vegetables), dairy product plants (including milk processing plants) excluding non-food/feed processing areas.
