For Product Information, Call 800-428-4416  
For Chemical Emergency spill, leak, fire, exposure or accident call INFOTRAC, day or night at 1-800-535-5053. Outside the US, call collect 1-352-323-3500.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Hold container upright. Apply in short bursts.

**For Use In and Around: Campgrounds, Food Storage Areas, Homes, Hospitals, Hotels, Meat Packing and Food Processing Plants, Motels, Resorts, Restaurants, Canneries, Bakeries, Dairies, Milking Parlors, Cafeterias, Diners, Institutions, Food and Non-Food areas of Warehouses, Kennels, Theatres, Office Buildings, Transportation Equipment (buses, Boats, Ships, Trains, Trucks, Planes). Do not use in aircraft cabins.**

**Kills: Angoumois Grain Moths, Ants, Bed Bugs, Carpet Beetles, Centipedes, Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Confused Flour Beetles, Crickets, Drug Store Beetles, Fleas, Flies, Gnats, Grain Mites, Granary Weevils, Horn Flies, House Flies, Indian Meal Moths, Mediterranean Flour Moths, Millipedes, Mosquitoes, Mud Daubers, Red Flour Beetles, Rice Weevils, Sawtoothed Grain Beetles, Silverfish, Small Flying Moths, Sowbugs, Spiders, Stable Flies, Hornets, Sandflies, Waterbugs, Scorpions, Firebrats, Brown Dog Ticks, Wasps and Cockroaches.**

### Food/Feed Handling Establishments:

For control of all labeled pests, applications are permitted in food/feed and non-food/non-feed areas of food/feed handling and processing establishments.

Food/Feed handling establishments are defined as places other than private residences in which exposed food/feed is held, processed prepared or served. Included also are areas for receiving, storing, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) of food/feed. Serving areas where food/feed is exposed and the facility is in operation are also considered food/feed areas.

**Non-Food/Non-Feed Areas:** Examples of non-food/non-feed areas include garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, mop closets and storage (after packaging, canning or bottling). All areas that insects inhabit or through which insects may enter should be treated.

Do not use as a space spray in the food/feed handling areas of the facility when the facility is in operation or foods/feeds are exposed. Do not apply directly to food/feed products. Cover or remove all food/feed processing and/or handling equipment during application. After application in food/feed processing plants, cafeterias and similar facilities, wash all

equipment, benches, shelving and other surfaces which food/feed with contact. Clean food/feed handling or processing equipment and thoroughly rinse with clean, fresh water. After application in bakeries, clean all food contact surfaces thoroughly with appropriate equipment.

In the home, cover or remove exposed food prior to application. Do not allow spray to contact food surfaces. If it does, clean surfaces with soap and water prior to use.

**To Kill Flies, Flying Moths, Gnats, Hornets, Mosquitoes, Sandflies and Wasps:** Close doors and windows and direct spray upward into center of room with a low, sweeping motion. Spray 5 to 10 seconds for average room (1,000 cu ft). Keep room closed for fifteen minutes after spraying. Ventilate room thoroughly before reentry. Sweep up and destroy fallen insects.

**To Kill Ants, Centipedes, Cockroaches, Crickets, Firebrats, Scorpions, Silverfish, Sowbugs, Spiders and Waterbugs:** Spray baseboards, cracks, crevices, moist areas and opening around sinks and pipes and other hiding places, hitting the insects directly. Spray ant hills and trails around windows and door sills and other locations.

**To Kill Exposed Forms of Confused Flour Beetles, Sawtoothed Grain Beetles, Rice Weevils and Granary Weevils:** Find and destroy all infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried.

**To Kill Clothes Moths:** Spray all articles to be protected, giving particular attention to folds and seams. Spray interior of storage containers such as closets, chests and trunks. Repeat treatment every 30 days unless the articles are stored in moth-tight containers.

**To Kill Bed Bugs:** Spray mattresses thoroughly, especially around seams and tufts. Spray bedstead, baseboards and floorboards.

**To Kill Carpet Beetles:** Directly spray as many insects as possible.

**To Kill Brown Dog Ticks and Fleas:** Remove and destroy pet's old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local areas of floors. Do not spray animals. Put fresh bedding in pet's quarters after the spray has dried. Also treat dogs and cats with a registered flea and tick control product before allowing them to enter treated areas.

To treat carpets, spray at the rate of one square foot per second.

**Storage & Disposal**

Do not contaminate water, food or feed by storage or disposal.  
**Storage:** Store in original container in a locked storage area. Do not use or store near heat or open flame.  
**Disposal:** Do Not Puncture or Incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

**PRECAUTIONARY STATEMENTS  
Hazards To Humans & Domestic Animals**

**CAUTION:** Harmful if swallowed or absorbed through skin. Wash thoroughly with soap and water after handling. Avoid contact with eyes, skin and clothing. Avoid breathing spray mist. Remove contaminated clothing and wash clothing before reuse.

**In hospitals, remove all patients prior to treatment. Ventilate area for 2 hours before returning patients.**

**Remove pets, birds and cover fish aquariums before spraying.**

**Physical or Chemical Hazards**

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

<b>FIRST AID</b>	
<b>If Swallowed:</b>	<ul style="list-style-type: none"><li>• Immediately call a poison control center or doctor for treatment advice.</li><li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li><li>• Do not give any liquid to the person.</li><li>• Do not give anything by mouth to an unconscious person.</li></ul>
<b>If Inhaled:</b>	<ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.</li><li>• Call a poison control center or doctor for further treatment advice.</li></ul>
<b>If On Skin or Clothing:</b>	<ul style="list-style-type: none"><li>• Take off contaminated clothing.</li><li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
<b>If In Eyes:</b>	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call a poison control center or doctor for</li></ul>

treatment advice.
<b>HOT LINE NUMBER</b>
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-535-5053 for emergency medical treatment information.
<b>NOTE TO PHYSICIAN</b>
Contains petroleum distillate – vomiting may cause aspiration pneumonia.
