

[5605-62]

# DIRECTIONS

1. Shake gently before using.
2. Remove protective cap. Hold can upright and point nozzle away from you.
3. Press button to spray.
4. Spray plants from a distance of 10 to 12 inches, spraying in short 1 or 2 second bursts.
5. FOR BEST RESULTS: Spray when insects first appear and repeat as necessary.

This spray may be used on African Violets, Begonias, Camellias, Carnations, Chrysanthemums, English Ivy, Fuchsias, Geraniums, Cras-sula, Kentia Palm, Roses, Rubber Plants, and Snapdragons.

Kills fleahoppers, certain aphids, spotted mites, white flies, and mealy bugs when sprayed directly on the insects.
