

The pool should be properly cleaned and filtered with the water before beginning algicide treatment. However, this is impractical. Empty the pool and scrub with a brush if possible, use 1 gallon for each 2500 gallons. Weighing by measuring the withered algae will have failed. Algae may be brushed to the bottom and then be swept out. And, the level of the pool is dropped one or two feet thereafter, use at the rate of 1 gallon in 37,000 gallons, as directed above.

WADING POOLS: Use larger doses in wading pools. Add 1/2 the smaller amount of water per bather. Add 1/2 POOL CARE Algicide for each 220 gallons of fresh water as pool is being filled. Repeat with 1/2 for each 450 gallons every four days. In hot sunny weather repeat every two days.

POOL CARE Algicide requires no special equipment or applications. It may be poured directly into the water from any point around the pool or through any water circulating system.

At normal dosages, POOL CARE Algicide is compatible with all chemicals normally used in swimming pools. It will improve the effect of any.

CONTENTS 1/2 GALLON LIQUID

503P

KEEP FROM FREEZING

MADE FOR
FARMINGDALE GARDEN LABS., INC.

100 WOOD STREET, FARMINGDALE, N.Y. 11737

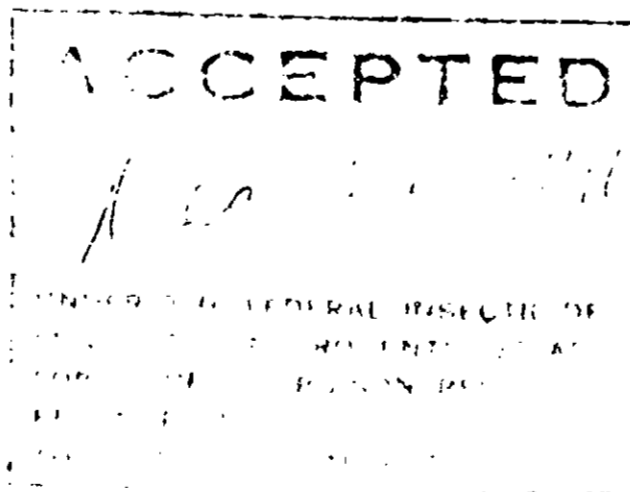

KEEPS WATER SPARKLING CLEAN
FOR CONTROL OF ALGAE SLIMES
CONCENTRATE — USE ONLY AS DIRECTED

U.S.D.A. Reg. No. 5605-84

ACTIVE INGREDIENTS:	
n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)	6.3%
dimethyl benzyl ammonium chloride	1.2%
n-Di-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)	92.5%
methyl benzyl ammonium chloride	
INERT INGREDIENTS: Water	

WARNING: KEEP OUT OF REACH OF CHILDREN
SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

POOL CARE Algicide is a potent algicide that kills and controls the growth of algae in public and private swimming pools. Continued usage, as directed, will insure the appearance and cleanliness of the pool.

POOL CARE Algicide is safe. It may be used for long periods of time without losing strength or effectiveness.

WARNING

Keep out of reach of children. Do not get in eyes, skin or on clothing. Causes severe eye irritation. Causes skin irritation. In case of contact wash immediately with plenty of water. For eyes, get medical attention immediately. Keep out of water. Avoid contamination of foods.

FIRST AID: If swallowed, do not induce vomiting. Drink large quantities of fluids and call a physician immediately.
