

DIRECTIONS FOR USE

INITIAL DOSE: One gallon POOL-CARE Algicide to 50,000 gallons of water.

MAINTENANCE DOSE: One quart POOL-CARE Algicide to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of POOL-CARE Algicide for each 10,000 gallons of fresh make up water added per week.

When swimming season is over, add 1 gallon POOL-CARE Algicide to 50,000 gallons of water in treating water left in pool. This does help provide a measure of control of algae growth during the Winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

Rinse empty container thoroughly with water and discard. This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water.

SWIMMING POOL ALGICIDE

FORMULA "B"

CONCENTRATED SWIMMING POOL ALGAEICIDE

KEEPS POOL WATER CLEAR AND FREE OF VISIBLE ALGAE
CONTROL ALGAE SLIMES

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)	8.4%
dimethyl benzyl ammonium chloride	
n-Di-Alkyl (60% C-14, 30% C-16, 5% C17, 5% C-18)	1.6%
methyl benzyl ammonium chloride	

INERT INGREDIENTS:

Water	90.0%
-------	-------

DANGER: Keep Out Of Reach Of Children

SEE OTHER WARNINGS ON SIDE PANEL.

Swimming Pool Algicide Formula B

When Pool Care Algicide is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (Square D algae), *Lyngba versicolor* (blue-green) and other swimming pool algae.

NOTE: Kill, control and or destroy refer to initial dose. Prevent development, suppress growth growth, inhibit, refer to maintenance dose.

POOL-CARE Algicide is compatible with most commonly used swimming pool chemicals but should not be mixed with soap or other cleaners or premixed with other water-treating chemicals. Pool-Care Algicide works best when added by itself directly to pool water. Pool-Care Algicide at use dilution is non-corrosive to inanimate surfaces.

DANGER

Keep out of reach of children. Do not get in eyes, skin or clothing. Causes severe eye irritation. Causes skin irritation. In cases of contact, wash immediately with plenty of water. For eyes, get medical attention immediately. Harmful if swallowed. Avoid contamination of food. Use goggles or face shield when using.

FIRST AID: If swallowed, do not induce vomiting. Drink large quantities of fluid and call a physician immediately.
