FARBOIL

DIRECTIONS

Preparation: Do not apply any Farboil coating until surface is thoroughly cleaned of grease, oil, loose paint, dirt, mud, rust scale or any other foreign material.

Apply coating to DRY SURFACE.

Farboil primer should be applied to bare or porous surface before painting.

Painting: Be sure to mix enough color at one time to do the entire job. If more than one container is used, box together thoroughly for complete color uniformity.

Stir Paint Thoroughly From the Bottom.

Apply Farboil paints by brush, spray or roller.

IMPORTANT: If it is necessary to paint under unusual conditions, call your Farboil Company Representative for technical advice.

KEEP AWAY FROM FIRE OR OPEN FLAME.

Do not re-use container. Dispose of container properly when empty. Do not contaminate water by cleaning of equipment or disposal of waste.
