# FLEA BOMB

With Malathion

Kills Fleas, Lice and Ticks on Dogs and Cats  
Deodorant

Contains:

ACTIVE INGREDIENTS

Pyrethrins	0.06
Technical Piperonyl butoxide	0.48
Methoxychlor, Technical	0.50
Malathion, O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate	0.25
Petroleum Distillate	4.91
Pine Oil NF	0.50
Equivalent to 0.384 of butylcarbityl 6 propyl piperonyl ether and 0.096 of related compounds.	
Equivalent to 0.44 2,2 bis (p methoxyphenyl) 1,1,1 trichloroethane and 0.06 other isomers and related compounds	

INERT INGREDIENTS 93.30

## CAUTION

KEEP OUT OF REACH OF CHILDREN

See side panel for other cautions

NET WEIGHT 12 OZS.

Manufactured by

For External Veterinary  
Use Only

## CAUTION

Keep away from children. Avoid breathing mist. Do not contaminate foodstuffs. Avoid contact with skin; wash thoroughly after using.

Apply sparingly to cats, kittens and puppies, spraying only on the back. Application may cause toxic reaction.

This bomb makes a slight hissing sound and causes a cool sensation. This is temporary. Nervous dogs may become frightened the first time this bomb is used but soon become accustomed to the treatment. Store in cool dry place.

## WARNING

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° Fahrenheit may cause bursting. Never throw container into fire or incinerator.

EPA Reg. No. 5645-6

### DIRECTIONS

To operate remove protective cap from top of can. Hold can upright, about 8 to 12 inches from dog's hair. Point opening on side of valve in desired position for spray. To release spray press down on valve. Move the bomb over the entire dog using a zig-zag motion, until the coat is slightly damp. It may be advantageous, especially on long haired dogs, to rub the hand against the lay of hair, spraying into the ruffled hair directly behind the hand. 30 to 45 seconds of spraying is usually sufficient to treat a 30 lb. dog. Repeat treatment as necessary.

Apply sparingly. Directly to the animal. For cats, apply to the base of the tail. 6 second application to cats and kittens.

Repeat if necessary. Use only as often as directed on label.

Thoroughly spray interior of dog, kennel or other sleeping quarters. Also spray bedding and replace with fresh bedding if necessary.
