# PHENICIDE A

PHENICIDE A is a concentrated germicidal cleaner for sanitary maintenance in hospitals, institutions, hotels, motels, restaurants, and factories.

## DIRECTIONS FOR USE:

For all general cleaning and disinfecting of walls, floors, corridors, ceilings, kitchen area, hospital furniture and bed frames including tuberculous areas, use 1:64 solution (2 oz. / gallon of water).

MOP METHOD: Mop thoroughly to wet surface and allow to remain wet 10 minutes. Pick up all dirty solution with clean damp mop or squeegee. For badly soiled and neglected surfaces, increase detergency by using 4-6 oz. of Phenicide A per gallon of water. Follow the cleaning procedures already described.

**DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.**

Rinse empty container thoroughly with water and discard it.

**DANGER: KEEP OUT OF REACH OF CHILDREN.**

Corrosive. May be harmful or fatal if swallowed. Causes damage to skin and eyes. Do not get on skin or in eyes. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, get prompt medical attention. If skin irritation persists, get medical attention. Remove and wash contaminated clothing before reuse. If swallowed, do not induce vomiting, drink large quantities of fluid and call a physician immediately.
